

Organisasi dan Manajemen

IF3141
Sistem Informasi

Semester I 2026/27
Teknik Informatika ITB

ORGANISASI

Sebuah **entitas** yang:

- Memiliki **tujuan**

- Dirancang untuk mencapai suatu hasil (tujuan bersama)

- **Terstruktur**

- Tugas dan tanggungjawab dibagi-bagi

[Daft 1993]

Concept from the behavioral viewpoint of management
(alternative to systems viewpoint)

ORGANISASI

- Sebuah organisasi:
 - Melibatkan interaksi dan usaha dari sejumlah orang (*people*)
 - Berupaya mencapai tujuan (*objectives*)
 - Berkomunikasi dan berkoordinasi melalui *Struktur*
 - Diarahkan dan dikendalikan lewat *Manajemen*
- [Mullins 1996]

Tipe Organisasi

Profit Organizations

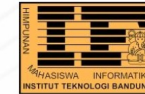

•**Definition** Entities that operate to generate profit for their owners

•**Key Features :**

- Revenue generation through sales of goods/services.
- Focus on maximizing shareholder value.
- Use of information systems for market analysis, sales tracking, and customer relationship management.

Non-Profit Organizations

•**Definition** Organizations that operate for a charitable, educational, or social purpose rather than for profit.

•**Key Features :**

- Funded through donations, grants, and fundraising activities.
- Focus on mission-driven goals rather than profit.
- Use of information systems for donor management, program evaluation, and outreach.

Government Organizations

•**Definition / Definisi:** Entities that operate at local, state, or federal levels to provide public services.

•**Key Features / Ciri-Ciri Utama:**

- Funded by taxpayer money.
- Focus on public welfare and policy implementation.
- Use of information systems for public administration, service delivery, and data management.

Cooperatives

•**Definition / Definisi:** Member-owned organizations that operate for the mutual benefit of their members.

•**Key Features / Ciri-Ciri Utama:**

- Members have a vote in decision-making.
- Profits are distributed among members or reinvested.
- Use of information systems for member management, financial tracking, and resource allocation.

Social Enterprises

•**Definition / Definisi:** Organizations that apply commercial strategies to maximize improvements in financial, social, and environmental well-being.

•**Key Features / Ciri-Ciri Utama:**

- Blend of for-profit and non-profit models.
- Focus on social impact alongside financial sustainability.
- Use of information systems for impact measurement, stakeholder engagement, and operational efficiency.

Virtual Organizations

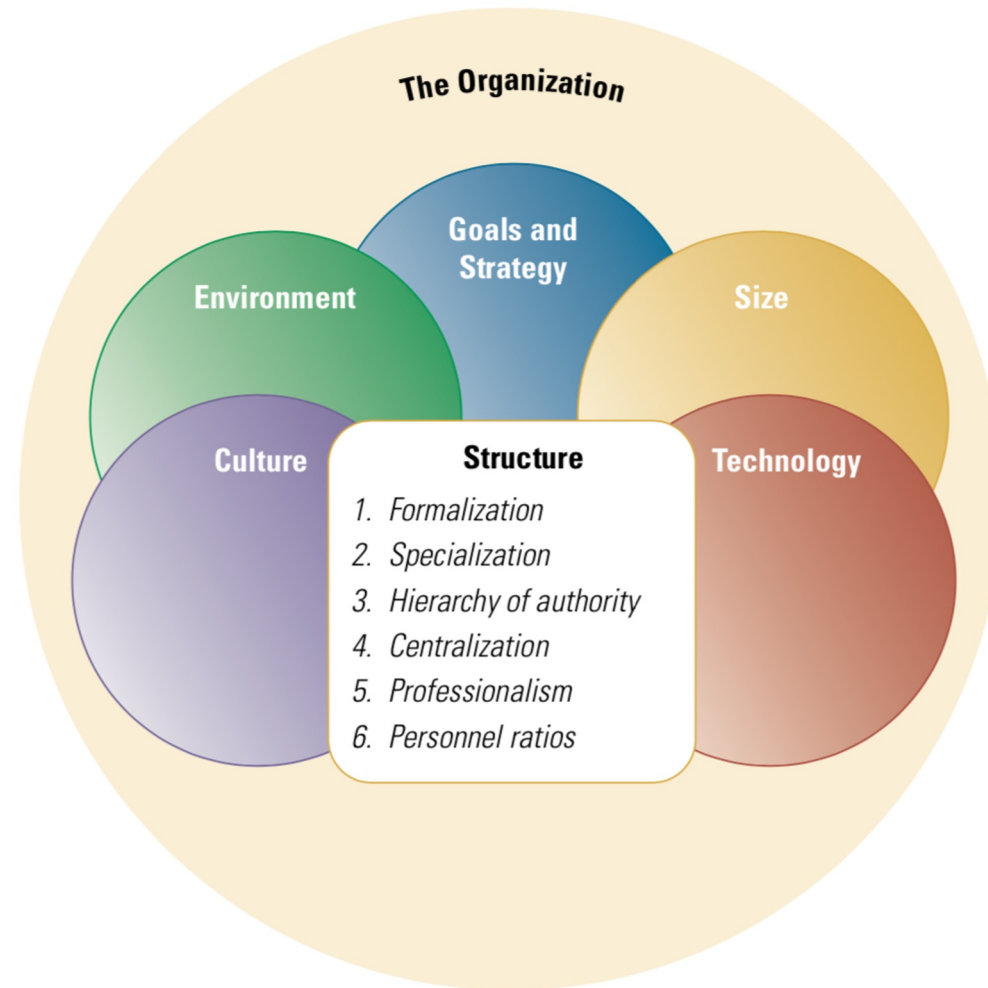

•**Definition / Definisi:** Organizations that operate primarily online, often without a physical presence.

•**Key Features / Ciri-Ciri Utama:**

- Use of technology to connect with customers and employees.
- Flexible and often global in reach.
- Heavy reliance on information systems for operations, marketing, and customer service.

DIMENSI DESAIN ORGANISASI

DIMENSI DESAIN ORGANISASI

- STRUCTURE: labels to describe the internal characteristics of an organization
 - Formalizations:
 - The amount of written documentation in the organization
 - Documentations: Procedures, Job Descriptions, Regulations, and policy manual
 - Specialization
 - The degree to which organizational tasks are subdivided into separate jobs
 - If specialization is extensive, each employee performs only a narrow range of tasks.
 - Hierarchy of Authority:
 - Describes who reports to whom and the span of control for each manager

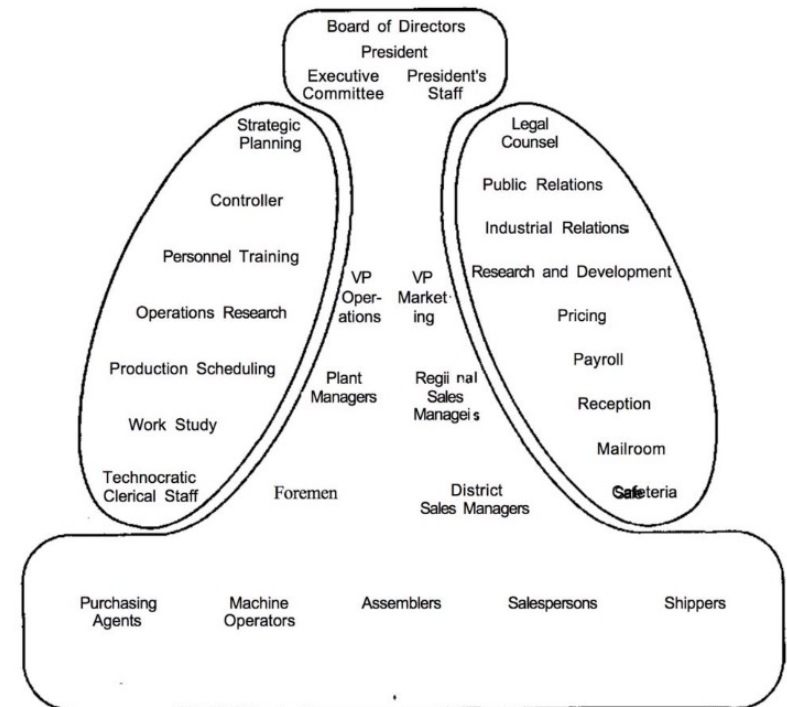

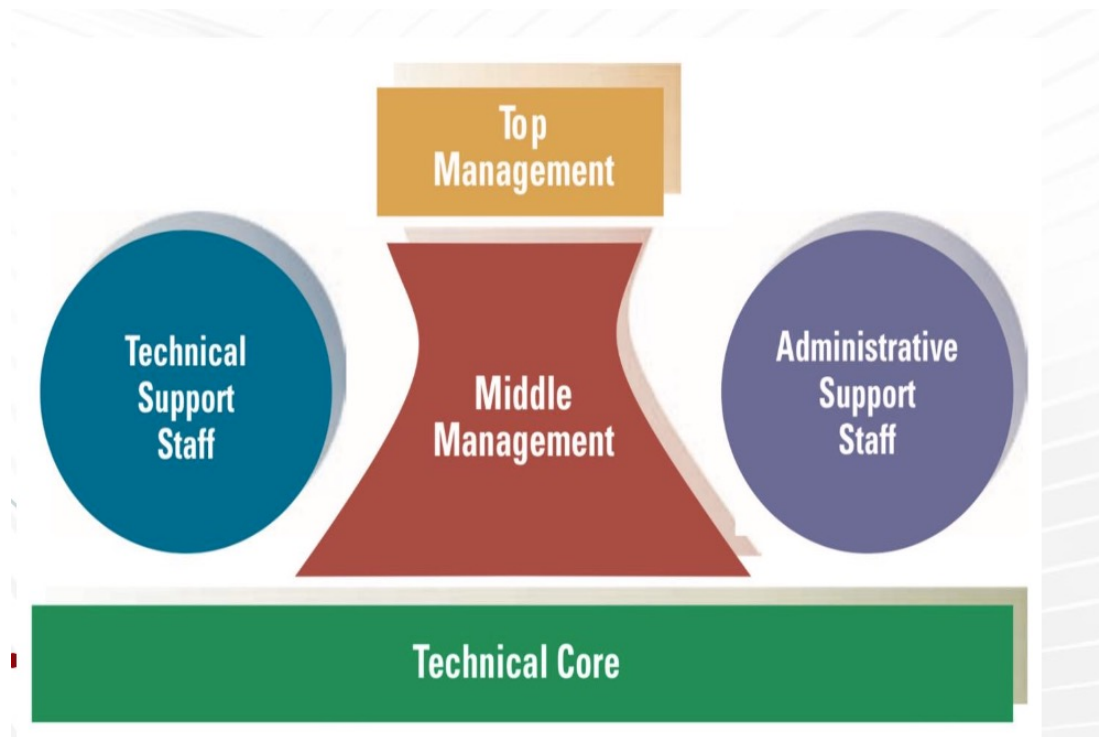

DIMENSI DESAIN ORGANISASI (2)

- Centralization
 - The hierarchical level that has authority to make a decision
 - When decision making is kept at the top level, the organization is centralized
- Professionalism
 - The level of formal education and training of employees
- Personnel ratios
 - Refer to the deployment of people to various functions and departments
 - Measured by dividing the number of employees in a classification (administrative, clerical, professional staff, etc) by the total number of organizational employees

DIMENSI DESAIN ORGANISASI

- CONTEXTUAL: the organizational setting that influences and shapes the structural dimensions
 - Size
 - The number of a company as a whole or for specific components such as a division
 - Organizational Technology
 - It concerns how organization actually produces the products/ services for customers
 - The environment:
 - All elements outside the boundary of the organization: such as industry, government, customers, suppliers, financial community
 - Goals and strategy
 - Define the purpose and competitive techniques that set it apart from other organizations
 - Culture
 - The underlying set of key values, beliefs, understandings, and norms shared by employees

Basic Parts of Organization

BAGIAN DASAR ORGANISASI

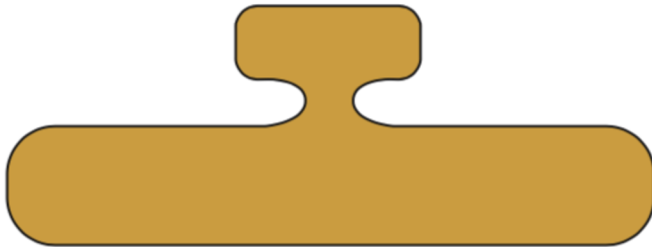

- Technical Core
 - who do the basic work of the organization, actually produces the product and service outputs of the organization
 - Production department in a manufacturing firm,
 - Teachers and classes in a university
 - Medical activities in a hospital
- Technical Support
 - helps the organization adapt to the environment by creating innovations in the technical core, helping the organization change and adapt
 - Engineers
 - Researchers,
 - Information technology professionals

BAGIAN DASAR ORGANISASI

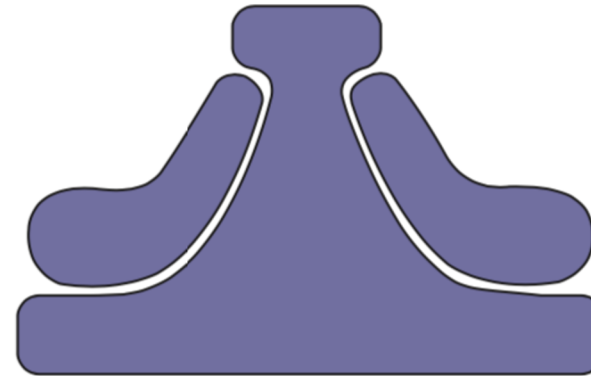

- Administrative Support
 - who are responsible for the smooth operation and upkeep of the organization, including its physical and human elements
 - Human resource activities, maintenance activities
- Management
 - responsible for directing and coordinating other parts of the organization
 - Top management provides direction, planning, strategy, goals, and policies for the entire organization or major divisions.
 - Middle management is responsible for implementation and coordination at the departmental level.

TIPE ORGANISASI

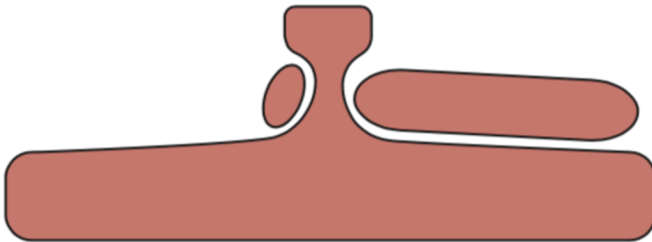

a. Entrepreneurial Structure

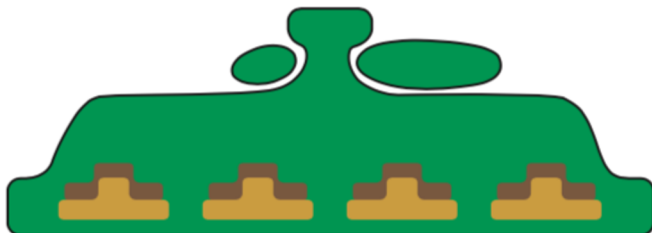

b. Machine Bureaucracy

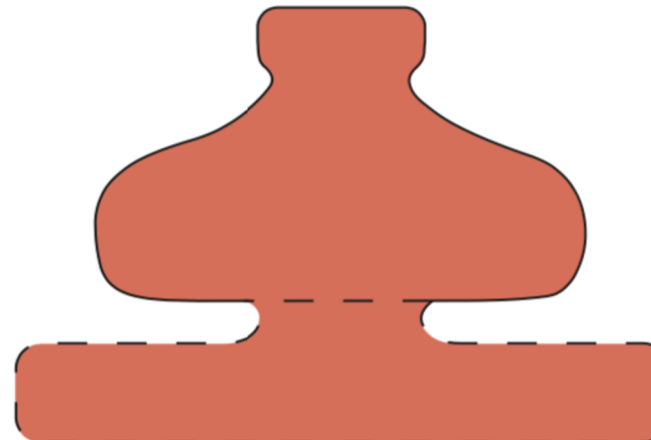

c. Professional Bureaucracy

d. Diversified Form

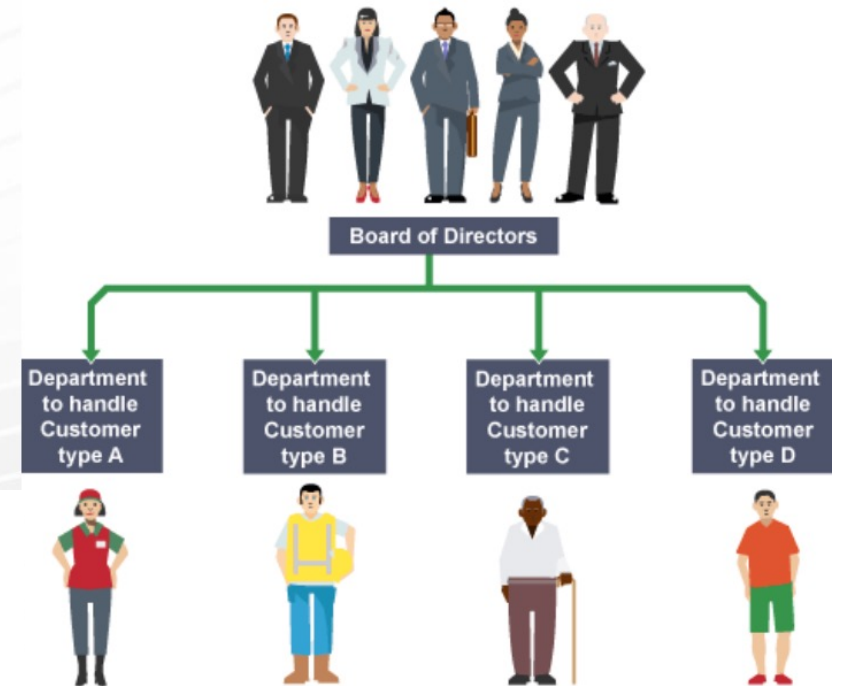

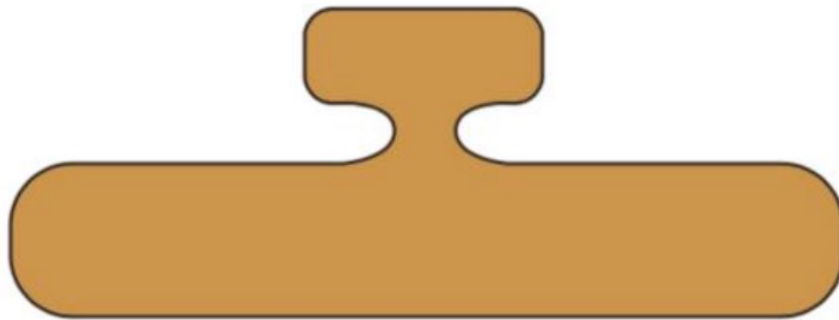

e. Adhocracy

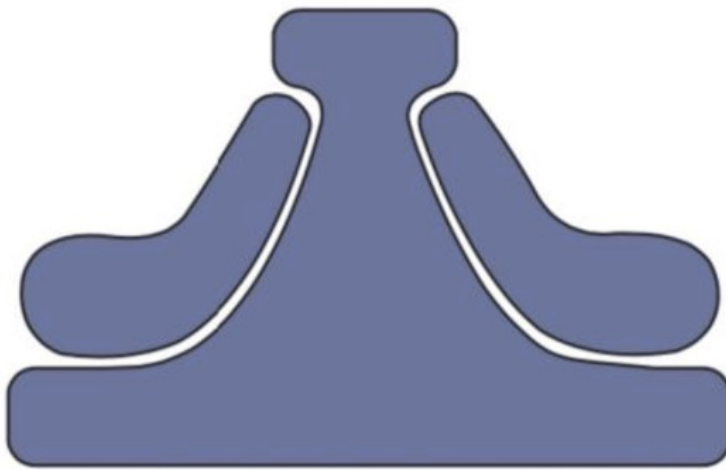

Basic Parts of Organization

a. Entrepreneurial Structure

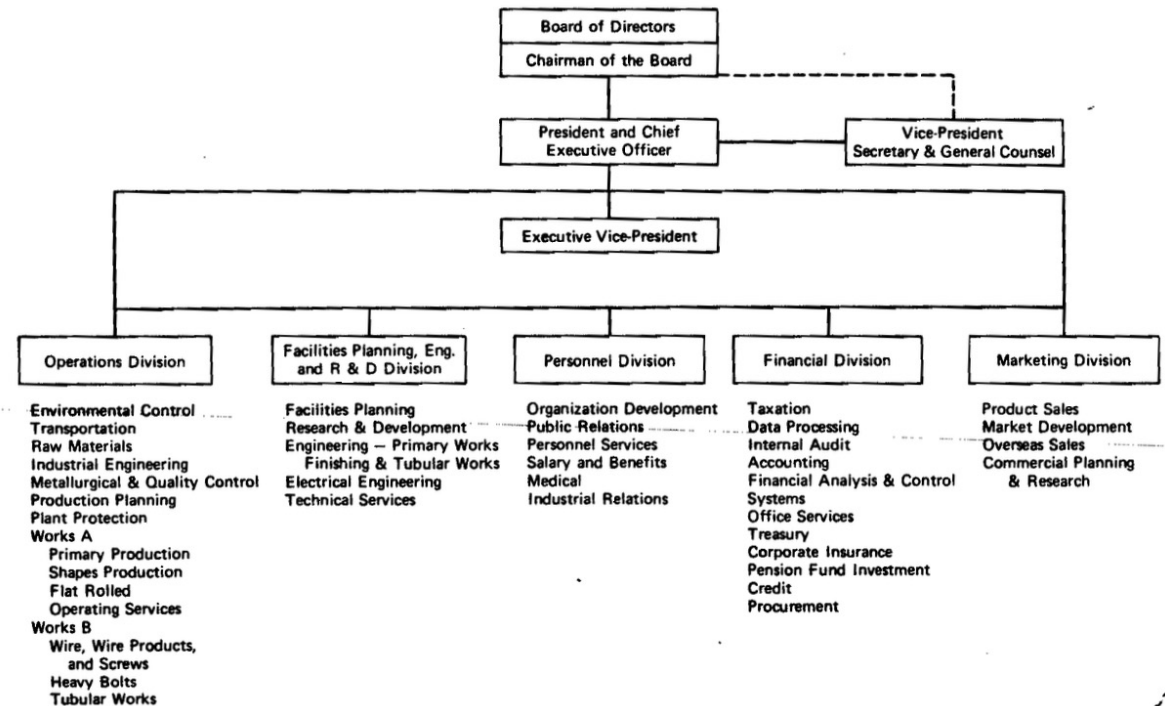

Basic Parts of Organization

b. Machine Bureaucracy

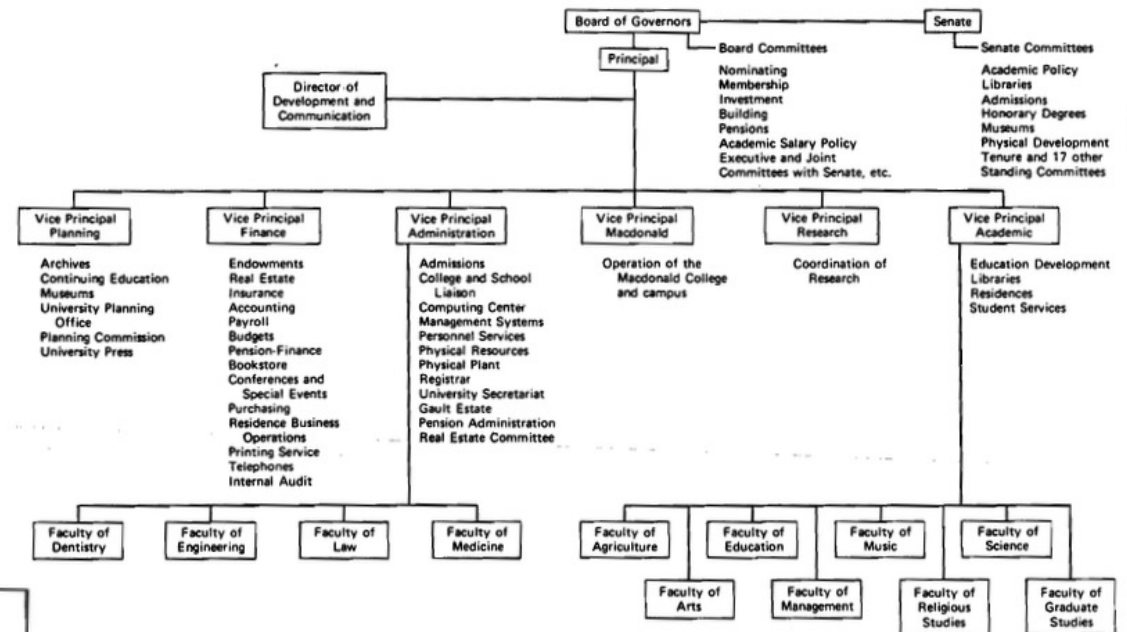

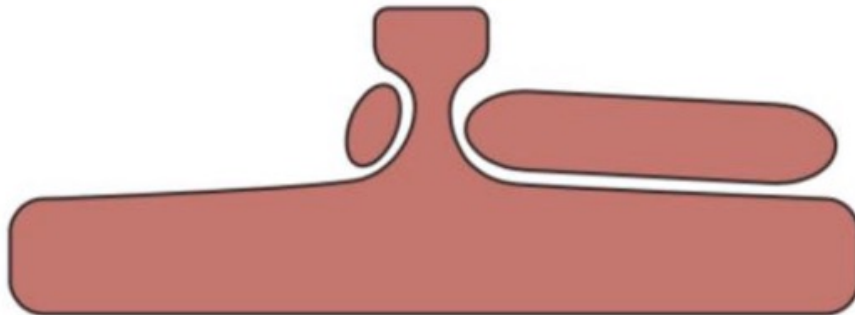

Prime Coordinating Mechanism:	Standardization of work processes
Key Part of Organization:	Technostructure
Main Design Parameters:	Behavior formalization, vertical and horizontal job specialization, usually functional grouping, large operating unit size, vertical centralization and limited horizontal decentralization, action planning
Contingency Factors:	Old, large, regulating, non-automated technical system, simple, stable environment, external control, not fashionable

Basic Parts of Organization

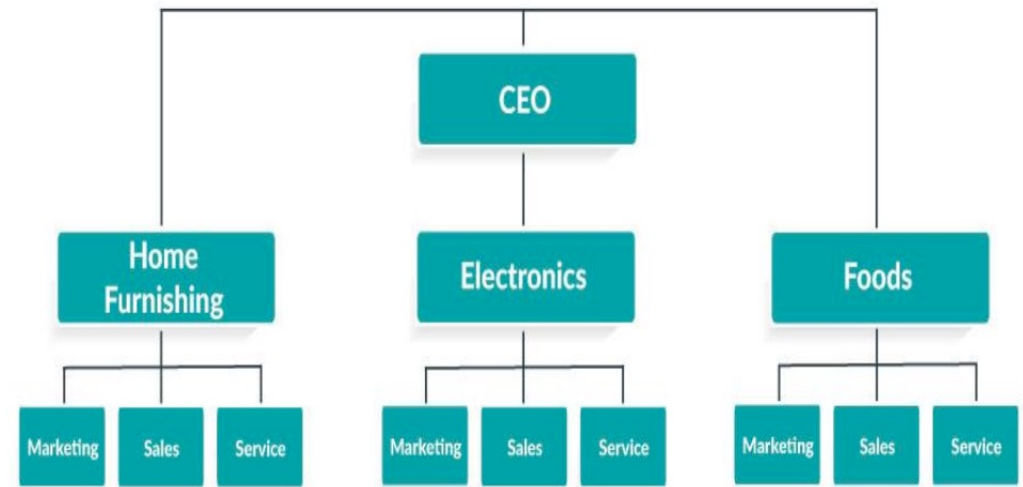

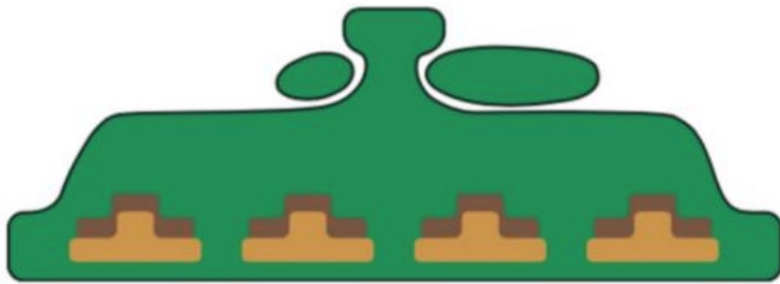

c. Professional Bureaucracy

Prime Coordinating Mechanism:	Standardization of skills
Key Part of Organization:	Operating core
Main Design Parameters:	Training, horizontal job specialization, vertical and horizontal decentralization
Contingency Factors:	Complex, stable environment, nonregulating, non-sophisticated technical system, fashionable

Basic Parts of Organization

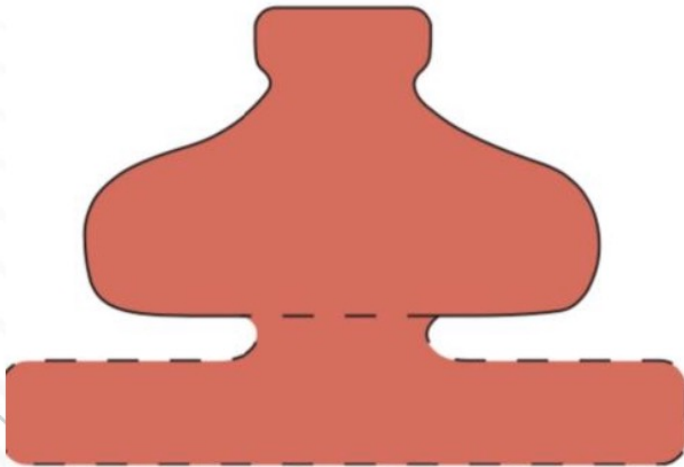

d. Diversified Form

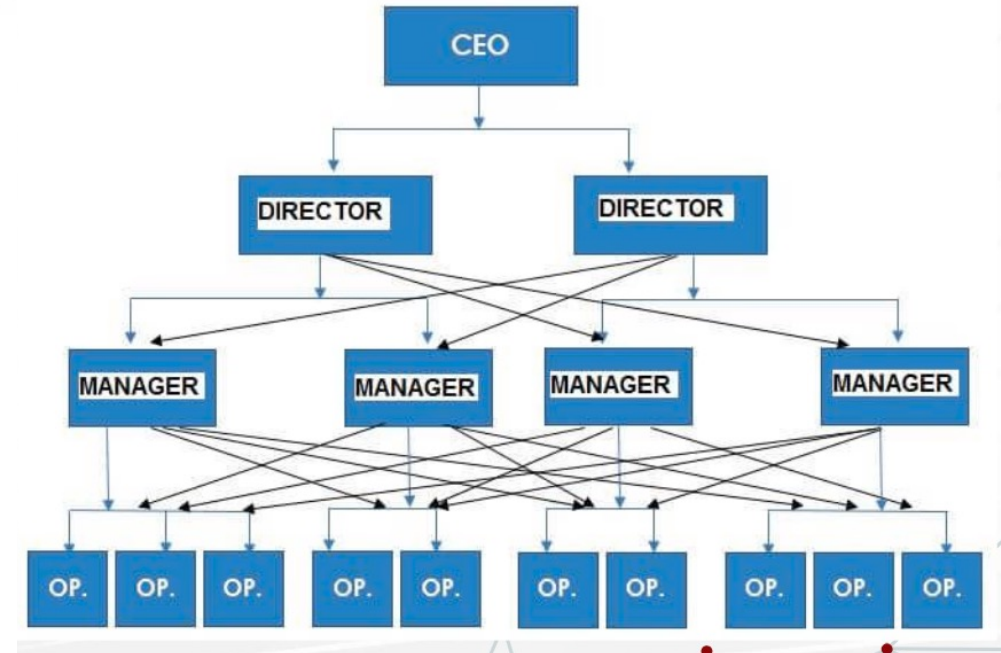

Prime Coordinating Mechanism:	Standardization of outputs
Key Part of Organization:	Middle line
Main Design Parameters:	Market grouping, performance control system, limited vertical decentralization
Contingency Factors:	Diversified markets (particularly products or services), old, large, power needs of middle managers, fashionable

Basic Parts of Organization

e. Adhocracy

Prime Coordinating Mechanism:	Mutual adjustment
Key Part of Organization:	Support staff (in the Administrative Adhocracy; together with the operating core in the Operating Adhocracy)
Main Design Parameters:	Liaison devices, organic structure, selective decentralization, horizontal job specialization, training, functional and market grouping concurrently
Contingency Factors:	Complex, dynamic, (sometimes disparate) environment, young (especially Operating Adhocracy), sophisticated and often automated technical system (in the Administrative Adhocracy), fashionable

Pengelompokan Posisi dalam Struktur Organisasi

- Berdasar pengetahuan dan keterampilan
 - Ahli bedah
 - Spesialis
- Berdasar Proses Kerja dan Fungsi
 - Bagian pengecatan
 - Bagian ...
- Berdasar Waktu
 - Shift/ Kelompok Kerja
- Berdasar Output
 - Tiap produk satu bagian
- Berdasar Klien
 - Misal pada perush asuransi/ konsultan/ Rumah Sakit
- Tempat

Struktur Berdasar Pengetahuan/Keterampilan

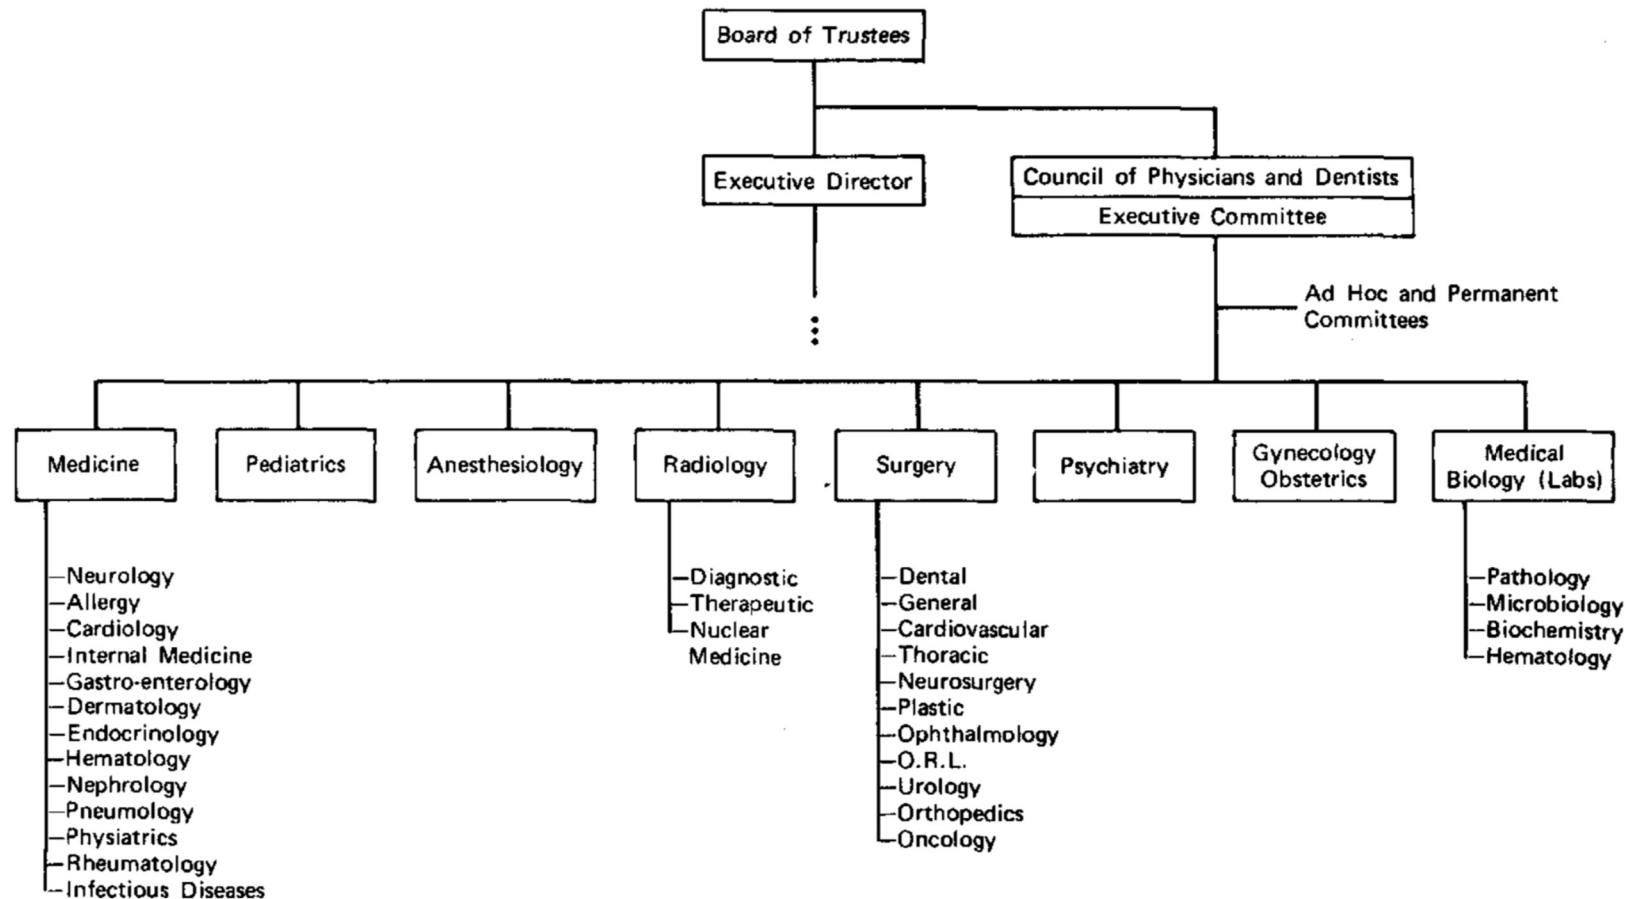

Figure 3-1. Grouping by knowledge and skill: medical departments of the teaching hospital

Struktur Berdasar PROSES/ FUNGSI

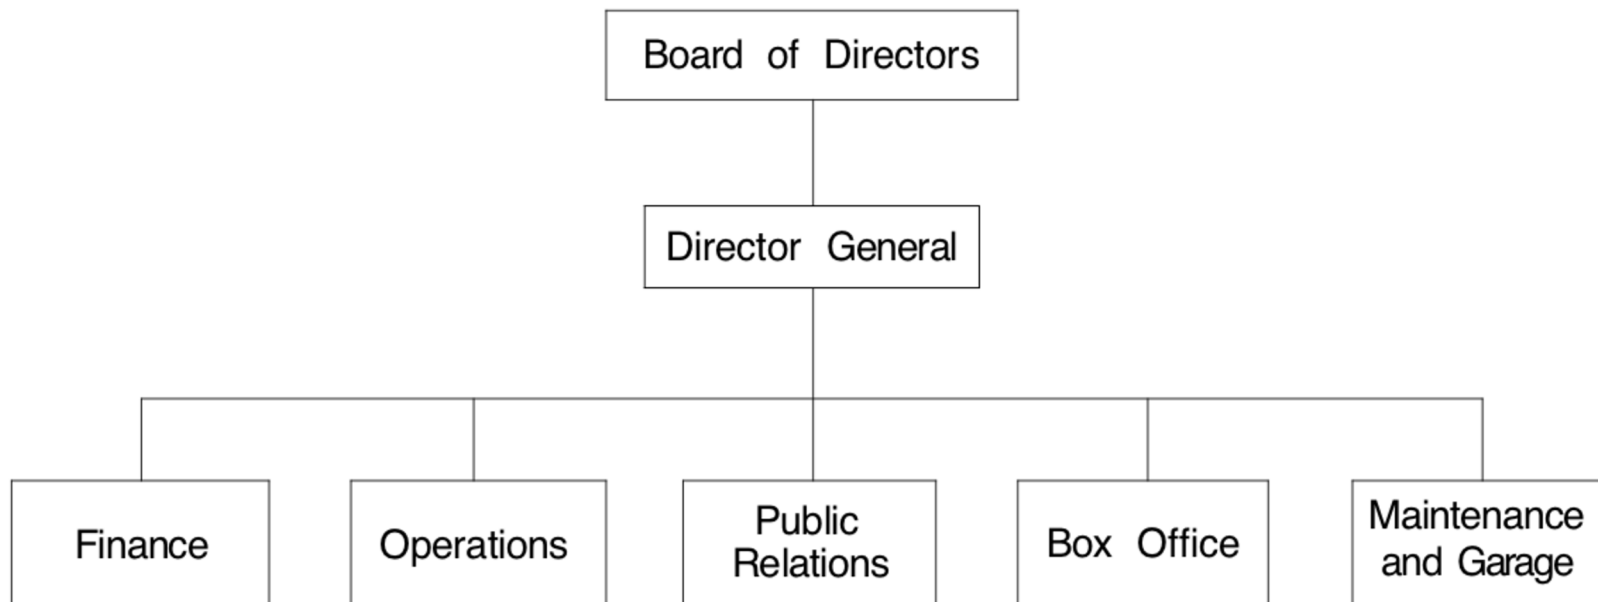

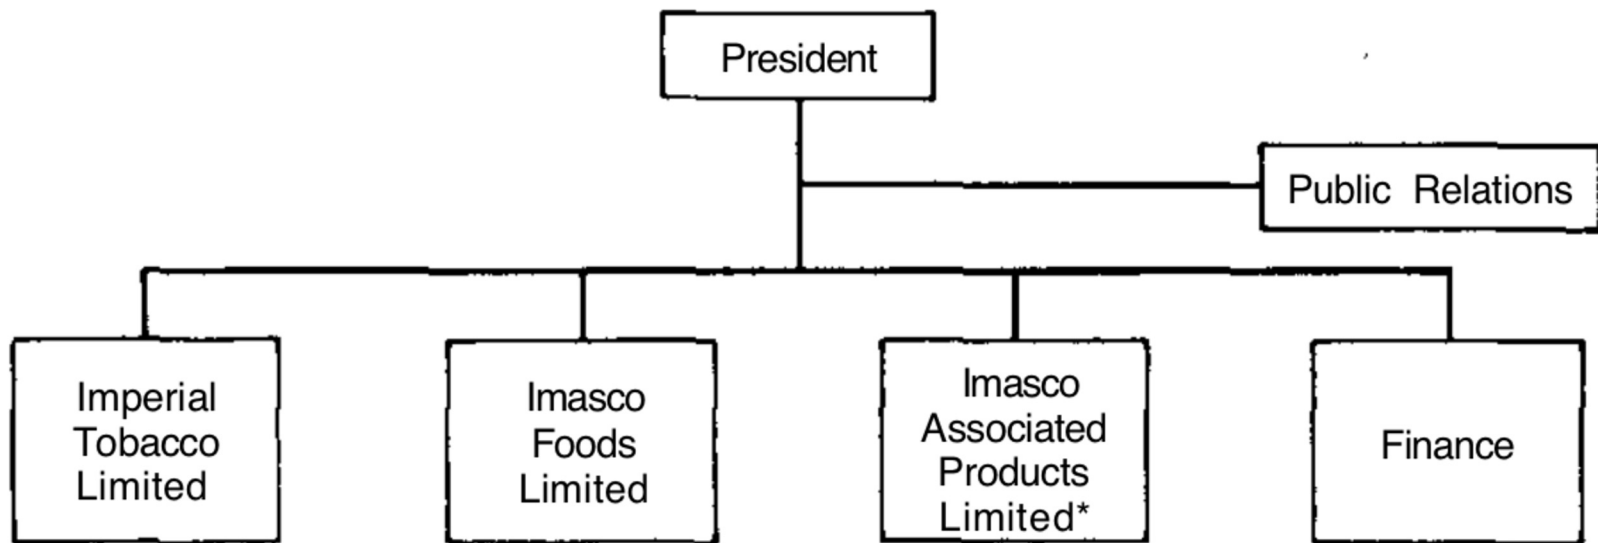

Figure 3-2. *Grouping by work process and function: a cultural center*

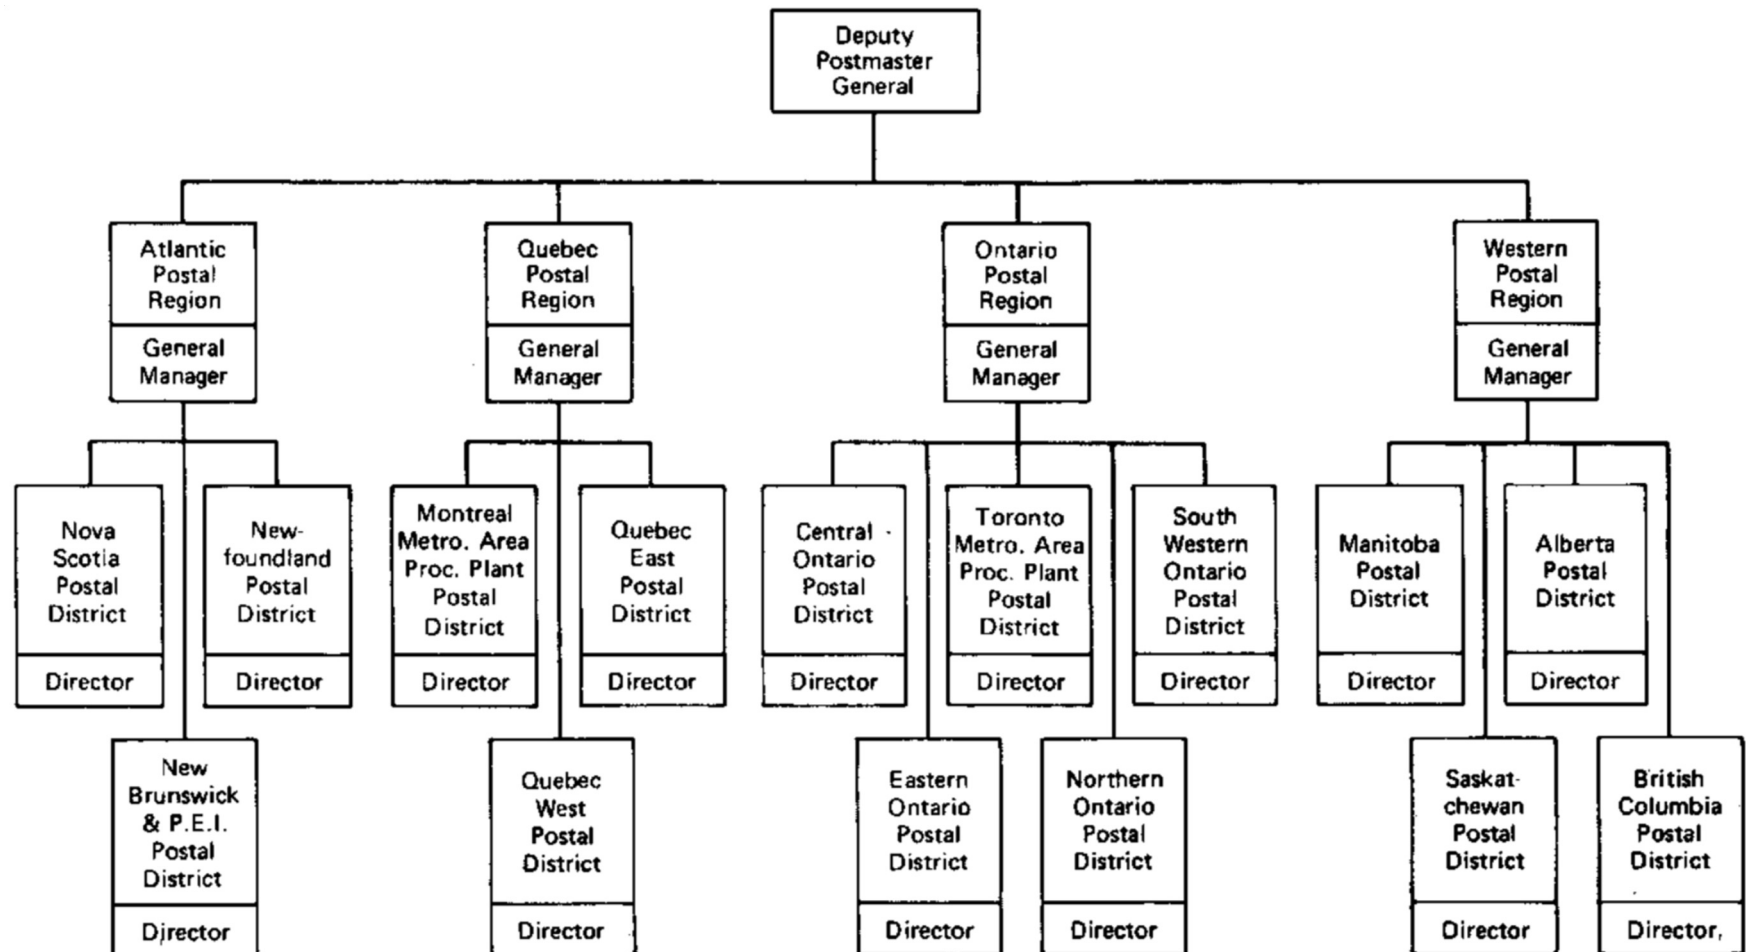

Struktur Berdasar OUTPUT

'Retail chain stores, etc.

Figure 3-3. *Grouping by output: Imasco Limited (circa 1975). Used by permission.*

Struktur Berdasar TEMPAT

Note: Headquarter staff groups deleted.

Figure 3-4. Grouping by place: the Canadian Post Office (circa 1978). Used with permission.

Contoh ORGANISASI BESAR

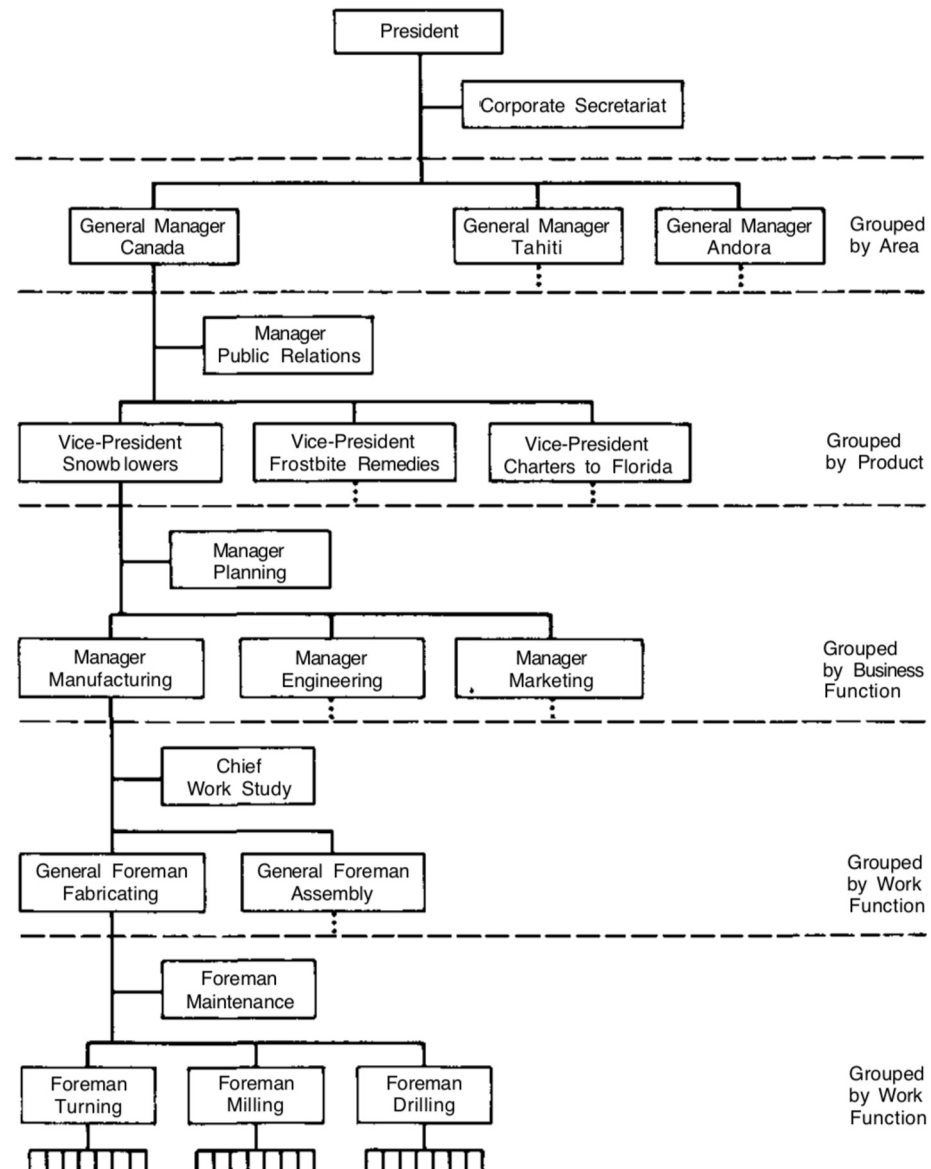

Figure 3-6. Multiple levels of grouping in a multinational firm

KRITERIA STRUKTUR

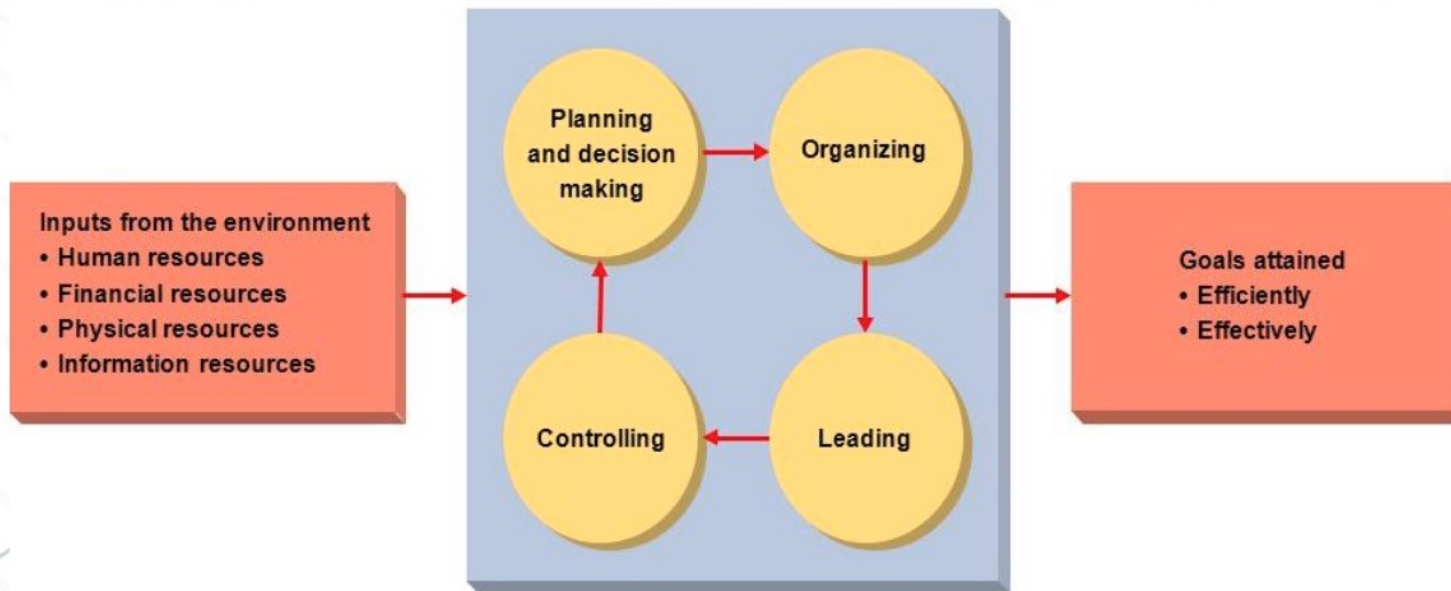

- Workflow: Alur Kerja
- Process: Spesialisasi
- Scale: Ukuran kelompok agar efektif
- Social interdependencies: Faktor subjektif
 - Personaliti
 - Kebutuhan Sosial

Basic Concept of Management

Definition of Management

Management is the process of planning, organizing, leading, and controlling the resources of an organization (human, financial, physical, and informational) to achieve specific goals efficiently and effectively.

- The art of getting things done through people. [M. P. Follett, quoted in Daft 1993]

MANAJEMEN: Art vs Science

The Science of Management

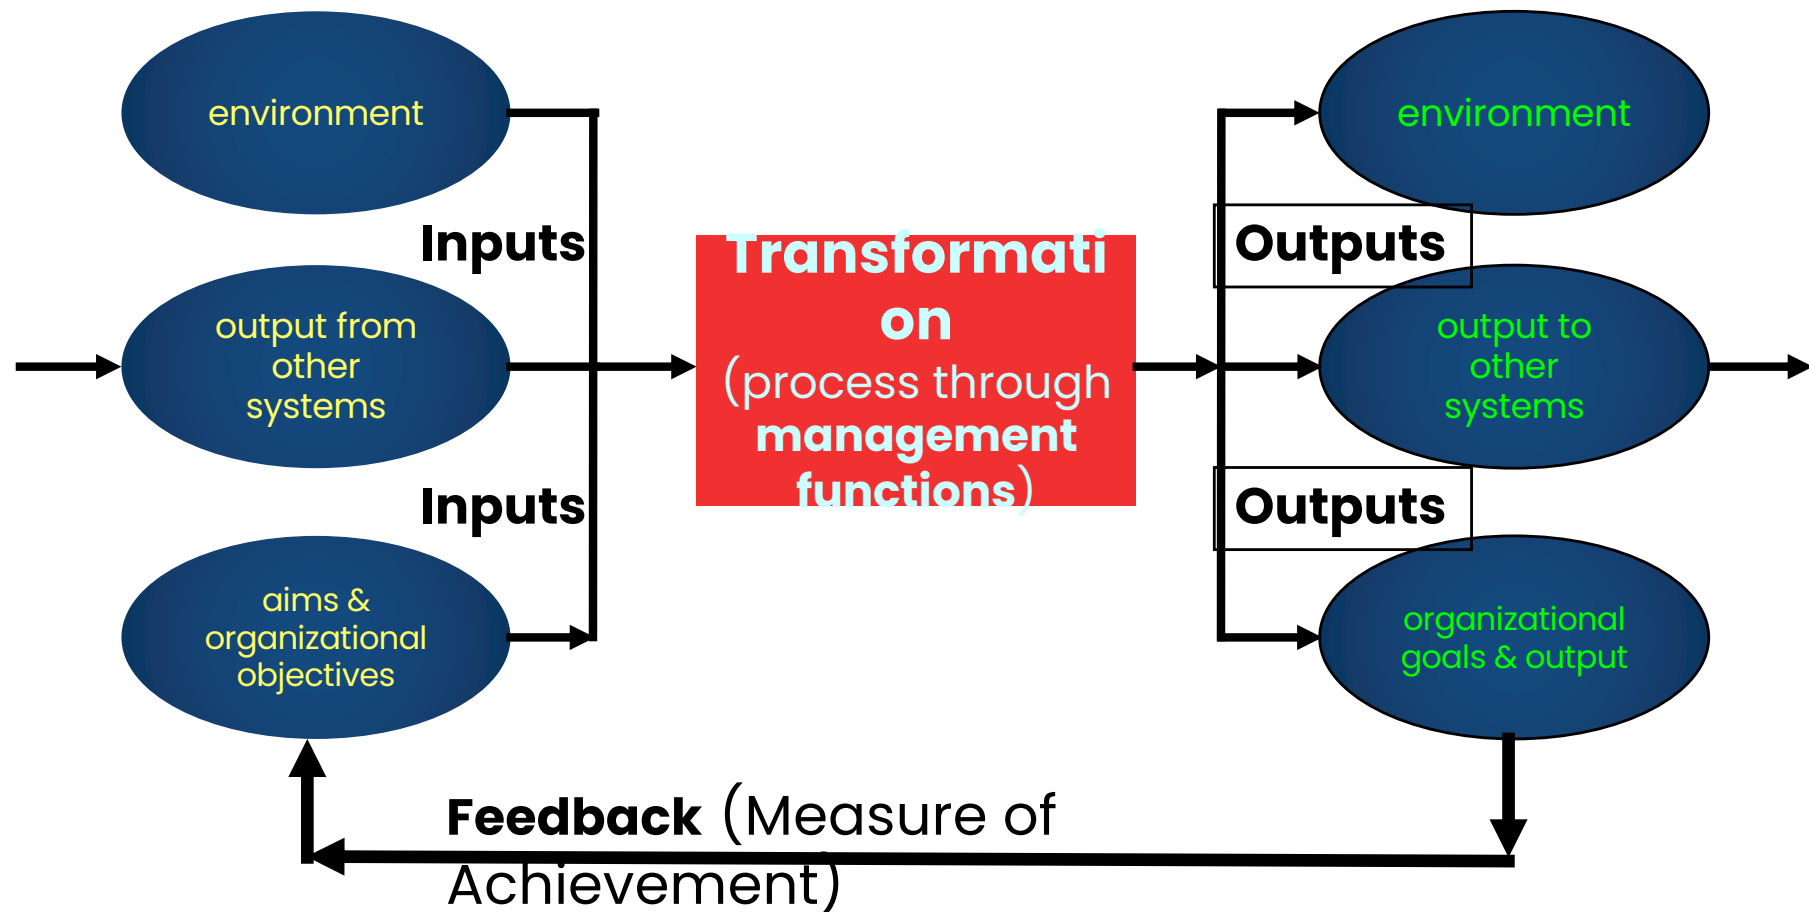

- Diasumsikan bahwa persoalan dapat didekati pemecahannya dengan cara rasional, logikal, obyektif dan sistematis
- Diperlukan teknik, diagnostik dan ketrampilan dalam pengambilan keputusan dan teknik penyelesaian untuk dapat menjawab persoalan.

The Art of Management

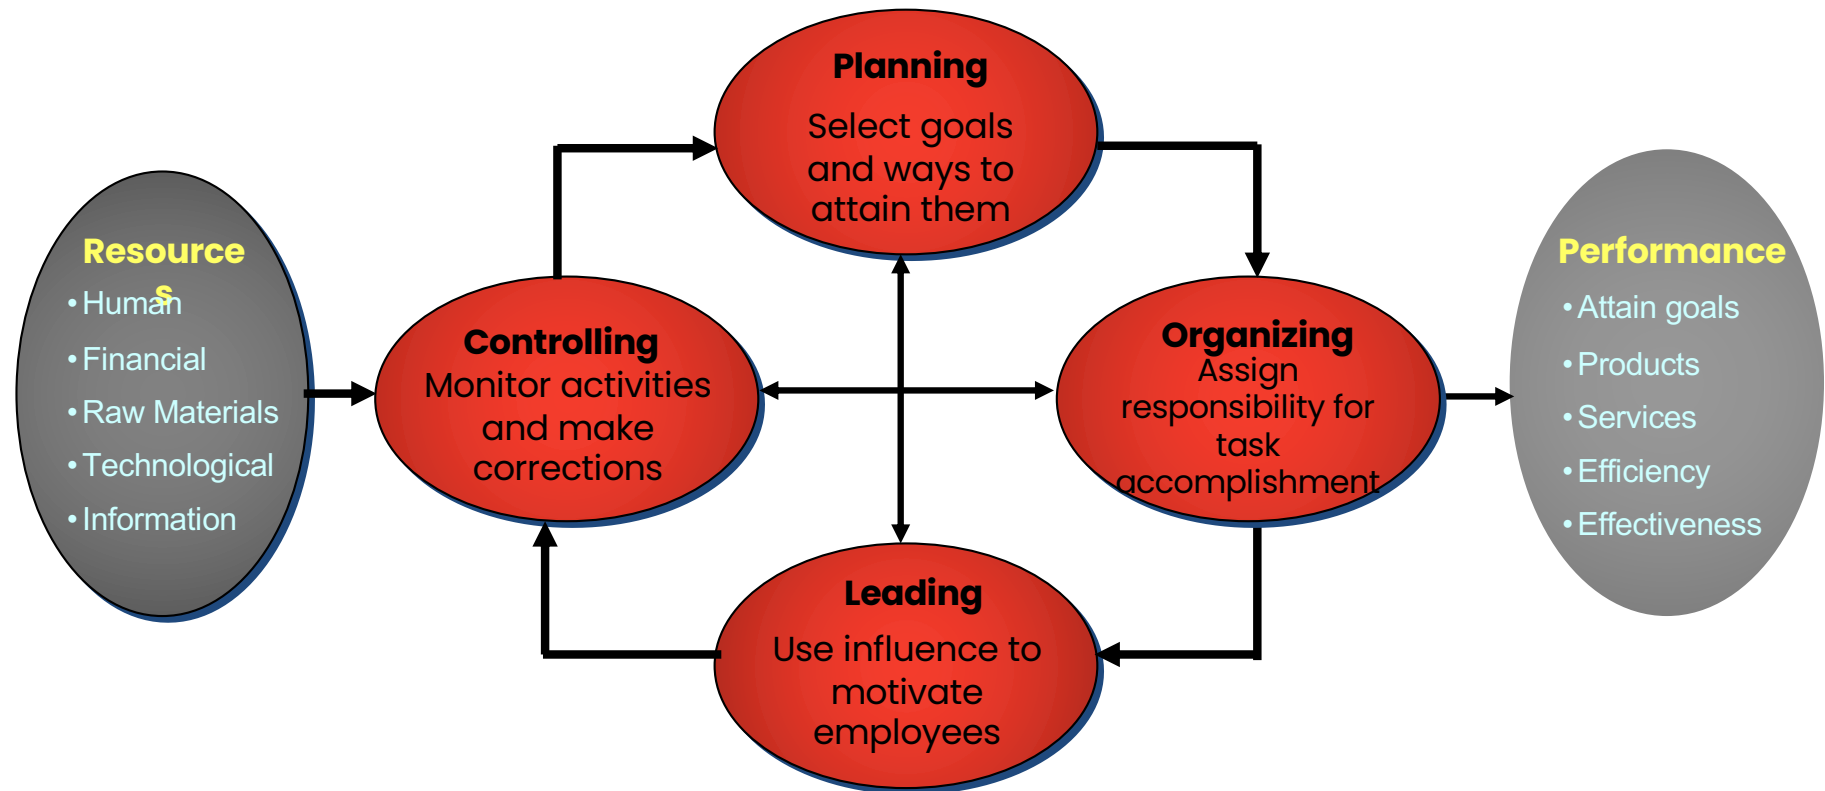

- Keputusan dibuat dan masalah diselesaikan dengan menggabungkan intuisi, pengalaman, insting dan pengertian yang mendalam
- Dibutuhkan konsepsi, komunikasi, antar personal dan ketrampilan pengaturan waktu untuk menyelesaikan tugas yang terkait dengan aktivitas manajemen.

MODEL MANAJEMEN

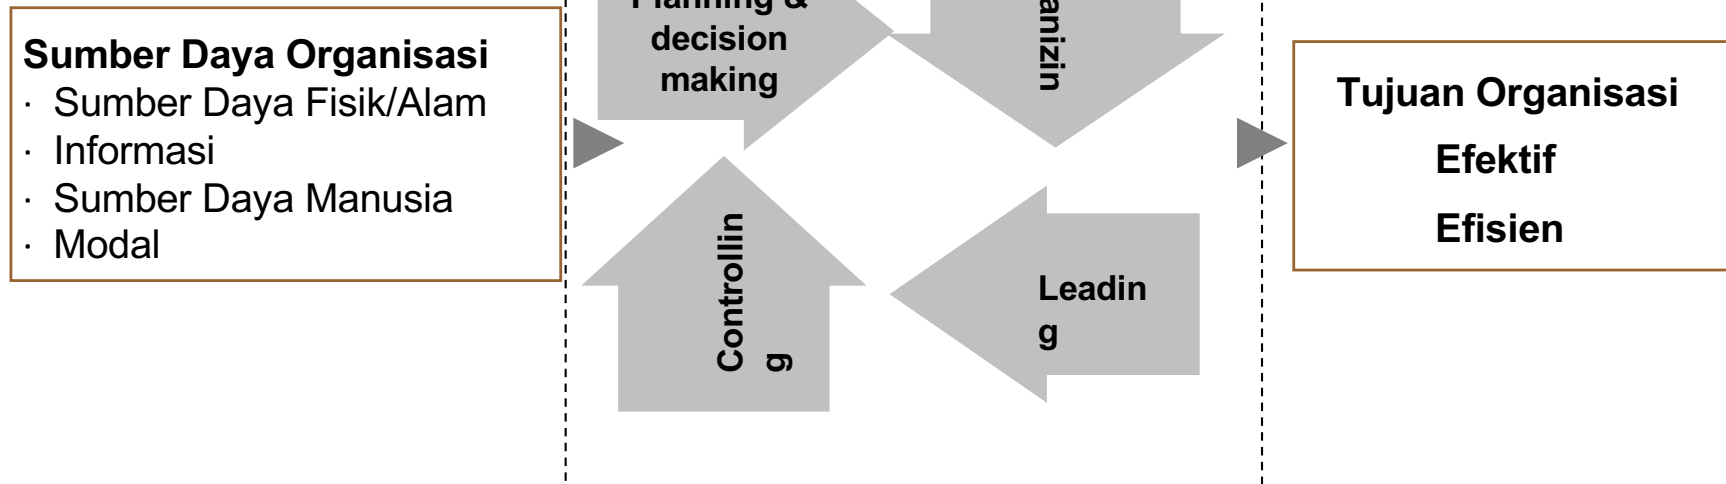

Systems Model of Management

MODEL MANAJEMEN

SUMBER DAYA ORGANISASI, TUJUAN dan PROSES MANAJEMEN

Tujuan MANAJEMEN

Pencapaian Tujuan Organisasi secara EFISIEN dan EFEKTIF

Efektif :

- Mengerjakan pekerjaan yang benar atau tepat
- Menggambarkan tingkat pencapaian tujuan
- Membuat keputusan yang benar dan sukses menerapkannya

Efisien :

- Menggunakan sumberdaya minimal untuk menghasilkan produk yang diinginkan
- Beroperasi (menggunakan sumberdaya) dengan cara sedemikian rupa sehingga tidak ada sumber daya terbuang (hemat)

The Management Process

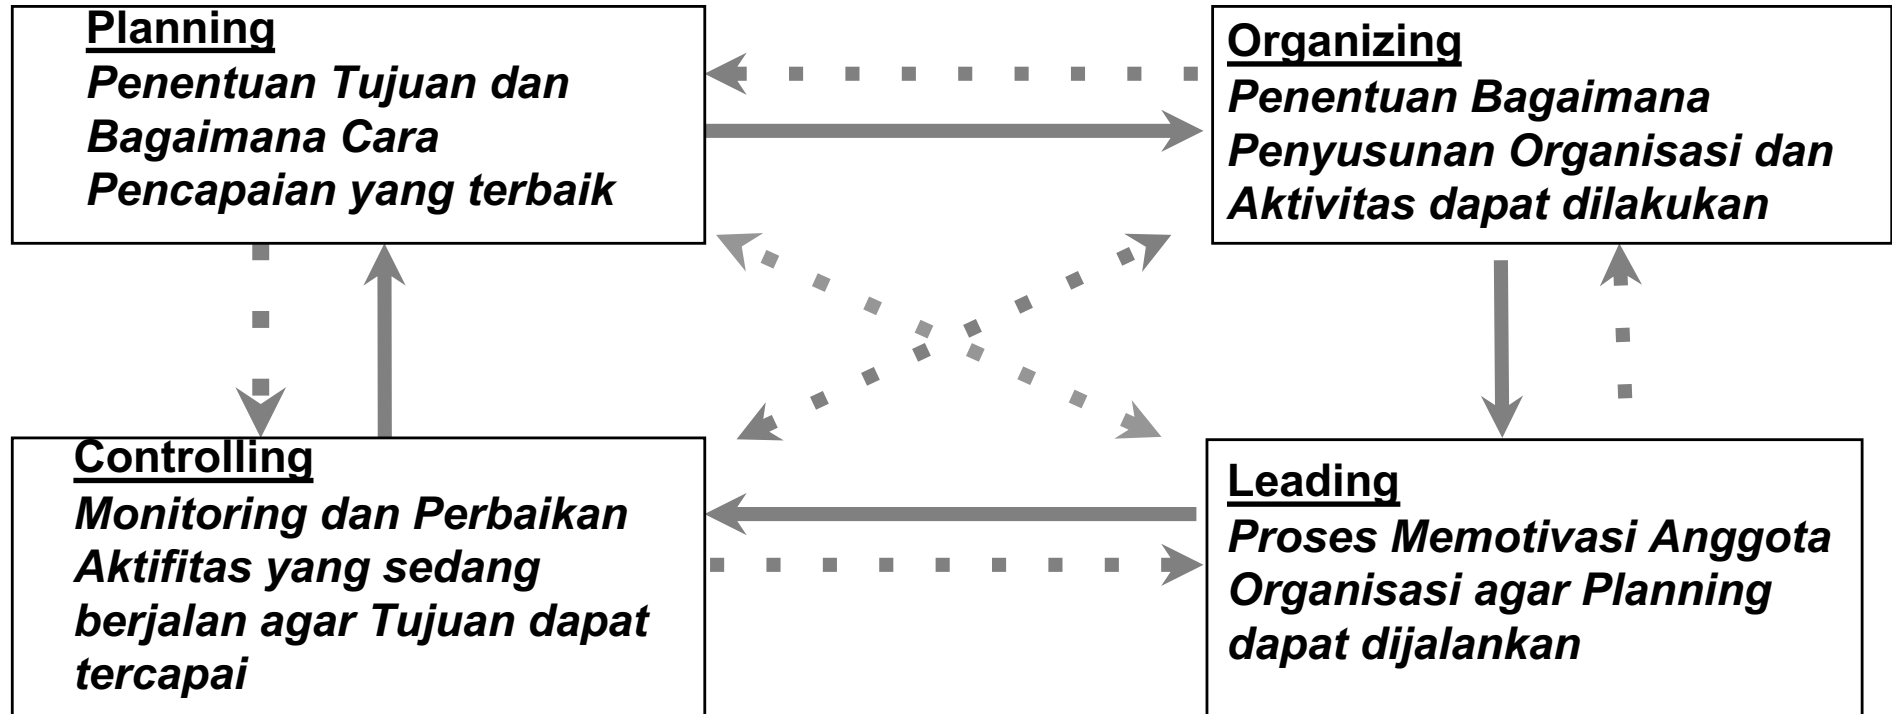

PROSES MANAJEMEN

- Untuk mencapai tujuan dilakukan
- Meliputi:
 - Perencanaan (Planning)
 - menetapkan apa yang akan dikerjakan
 - Pengorganisasian (Organizing)
 - membuat pengaturan
 - Memimpin (Leading)
 - memberikan arahan
 - Mengendalikan (Controlling)
 - membuat aksi sesuai yang diinginkan

Ada yang menambahkan

- Penentuan personel (Staffing)
 - memilih personel yang tepat untuk melaksanakan pekerjaan/tugas

Kegiatan dalam PROSES MANAJEMEN

Keterangan:

Menunjukkan Arah Tahapan dari setiap fungsi manajemen

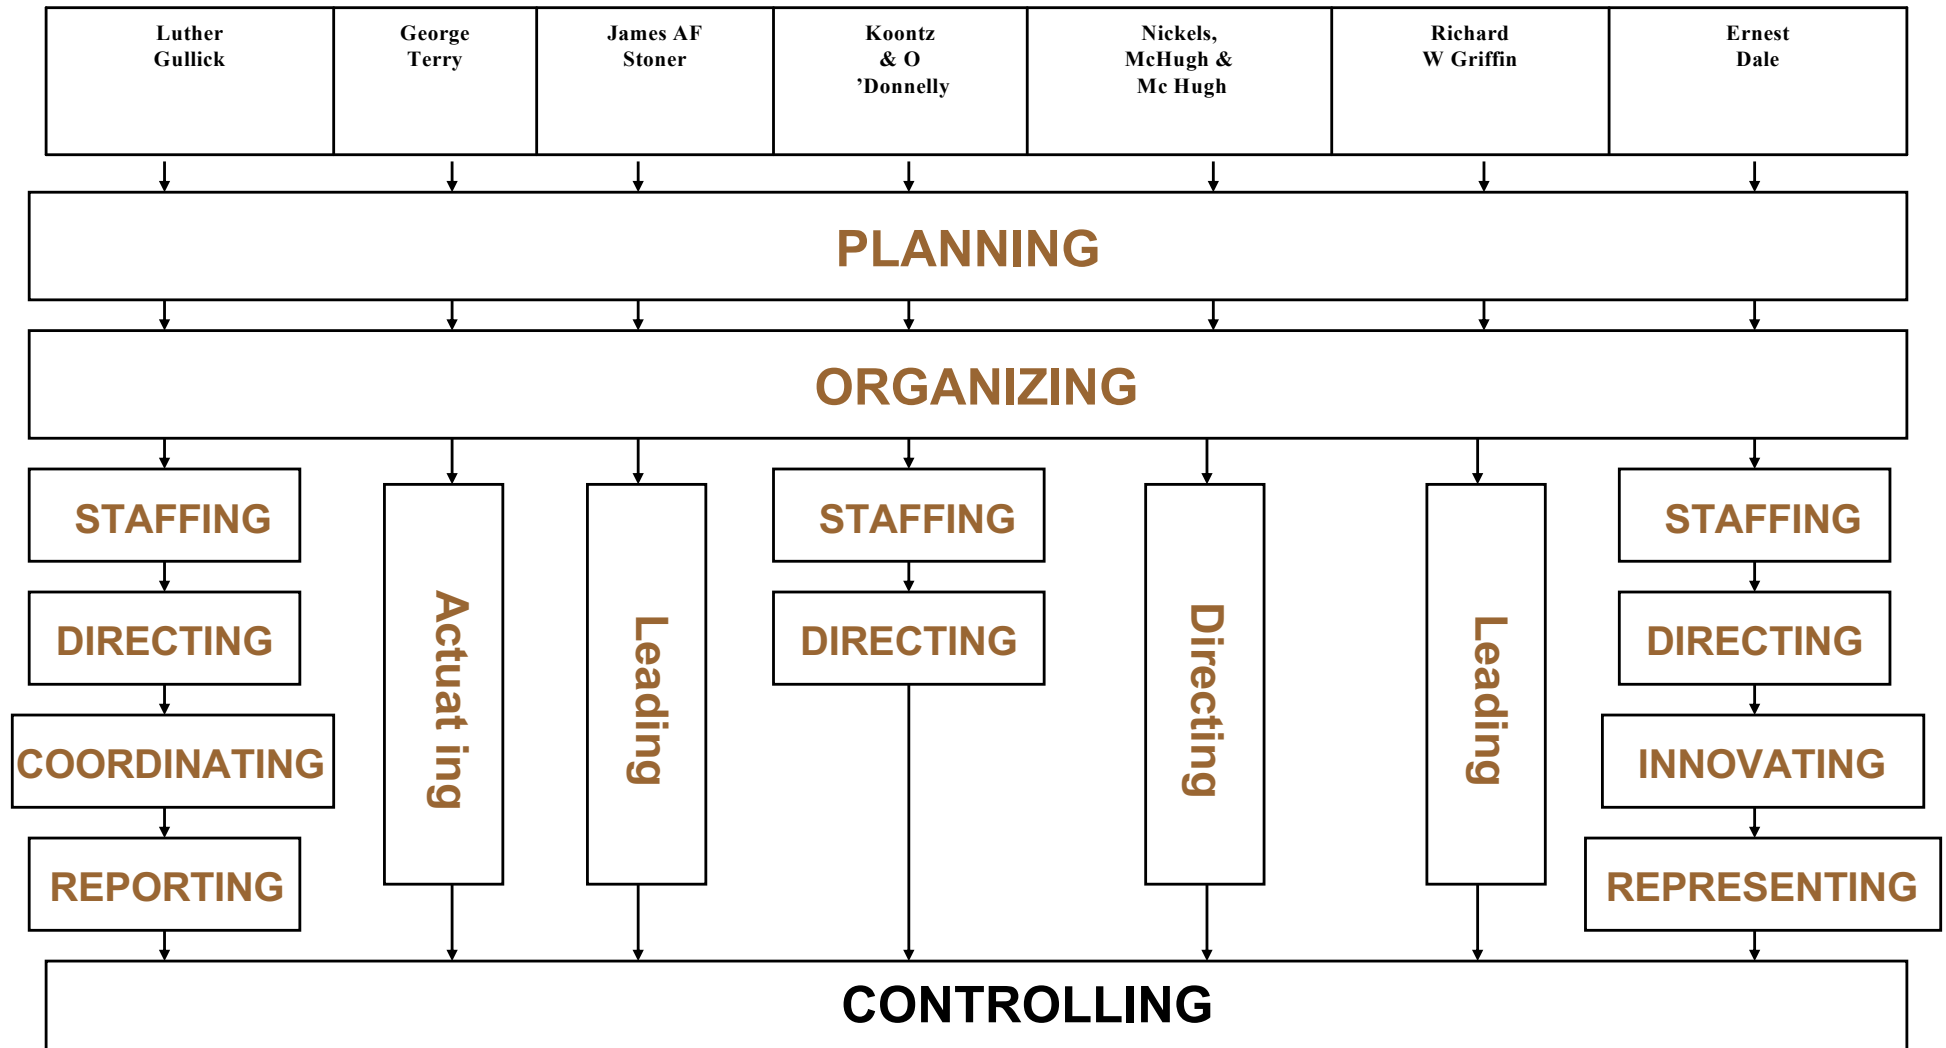

Menunjukkan keterkaitan timbal balik antar fungsi manajemen

(Alternatif) PROSES MANAJEMEN

- Perencanaan (Planning)
 - menetapkan apa yang akan dikerjakan
- Pengorganisasian (Organizing)
 - membuat pengaturan
- Penentuan personil (Staffing)
 - memilih personel yang tepat untuk melaksanakan pekerjaan/tugas
- Mengarahkan (Directing)
 - memberikan instruksi
- Memantau (Monitoring)
 - memeriksa kemajuan
- Mengendalikan (Controlling)
 - membuat aksi sesuai yang diinginkan
- Inovasi (Innovating)
 - mendapatkan solusi baru
- Penyajian (Representing)
 - menghubungkan pemakai

(Berbagai VARIASI) PROSES MANAJEMEN

Peran Manajer

Informational

- Monitor
- Disseminator
- Spokesperson

Posisi manajer sebagai fasilitator untuk pengiriman dan penerimaan informasi

Interpersonal

- Figurehead
- Leader
- Liaison

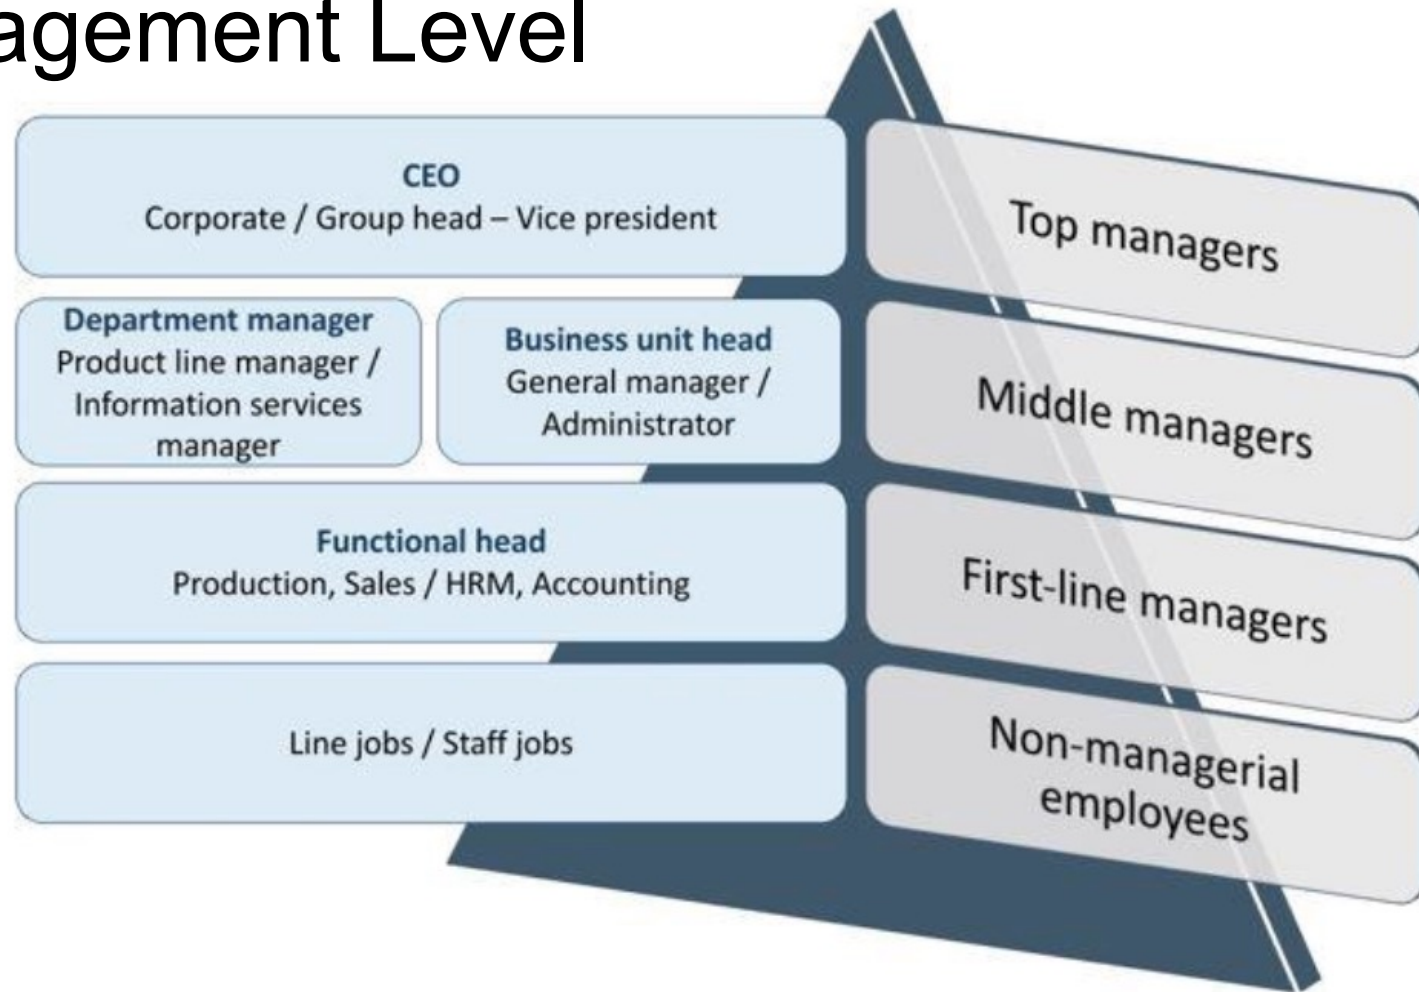

Keterlibatan manajer dalam hubungan baik antar individu didalam maupun diluar organisasi

Decisional

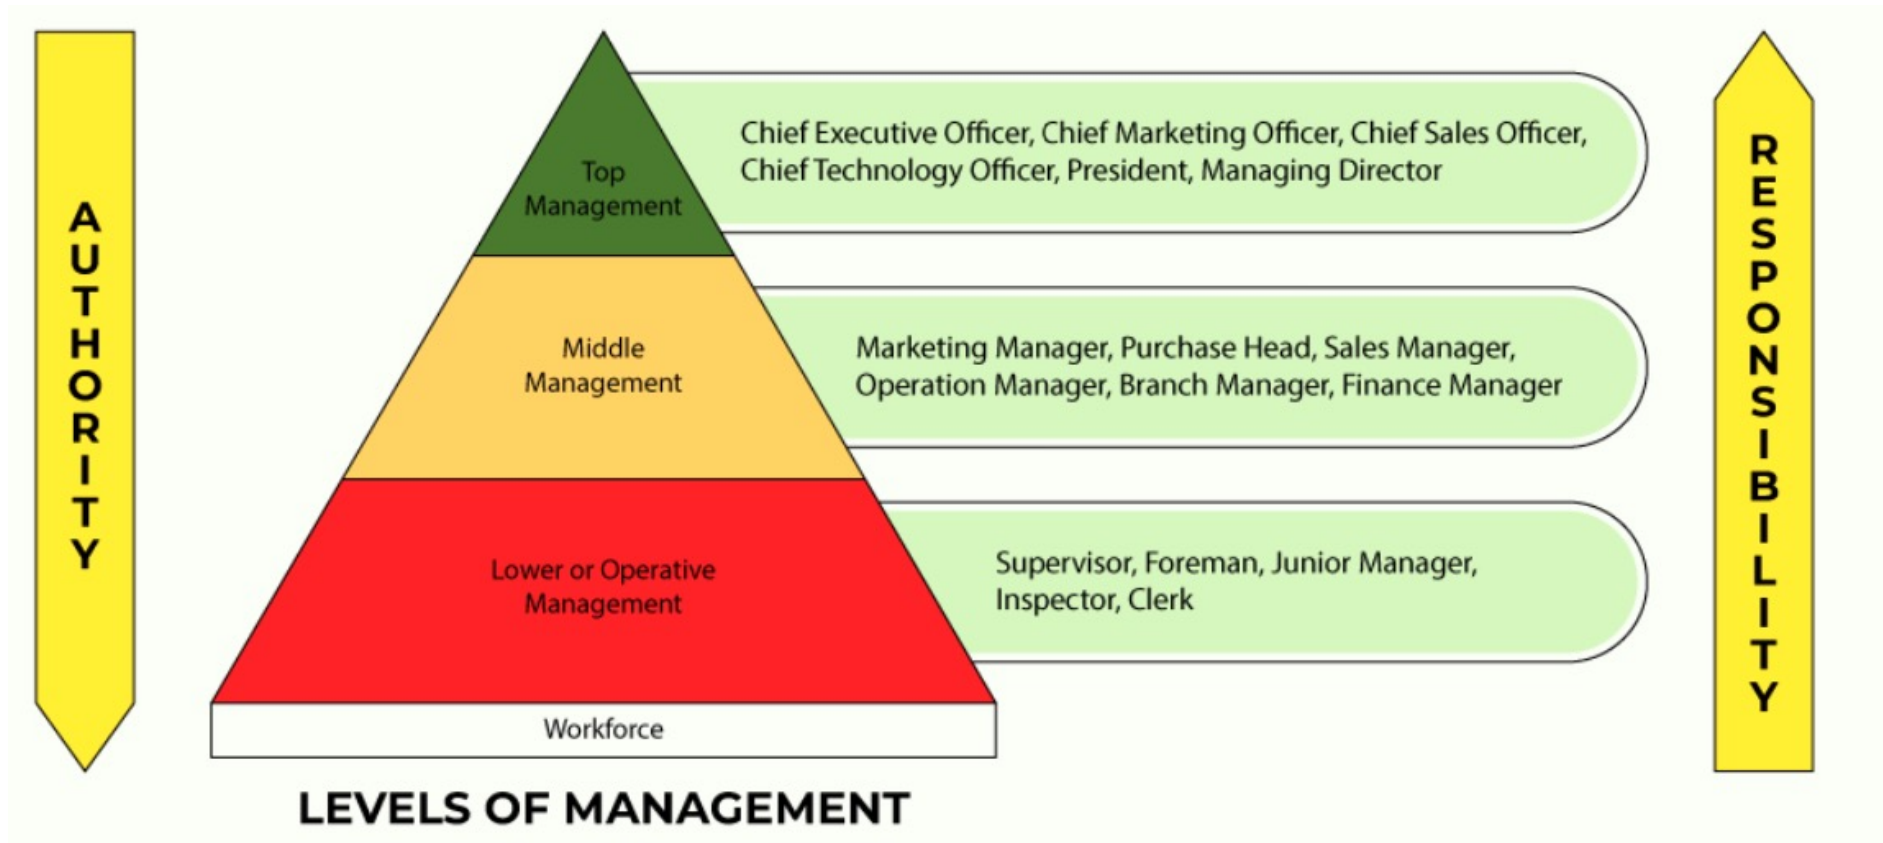

- Entrepreneur
- Disturbance handler
- Resource allocator
- Negotiator

Manajer menggunakan informasi yang tersedia untuk membuat keputusan penting

Management Level

Management Level

LEVEL MANAJEMEN: Top Level Managers

- Senior executives bertanggungjawab pada seluruh manajemen organisasi
- Tekanan pada *survival*, pertumbuhan dan efektivitas
- Terkait dengan interaksi antara organisasi dengan lingkungan eksternal
- Contoh:
 - CEO
 - COO
 - ...
 - CIO
 - Vice President

LEVEL MANAJEMEN :MIDDLE-LEVEL (TACTICAL) MANAGERS

- Berada antara top-level dengan low/frontline-level
- Bertanggungjawab untuk menerjemahkan tujuan dan rencana strategi kedalam tujuan dan aktivitas yang lebih spesifik
- Secara tradisional berperan sebagai pengendali administrasi yang menjembatani antara high dengan low level
- Berperan pada pengembangan pelatihan kepada personal
- Bertanggung jawab atas bagian atau departemen
- Mensupervisi dan mengkoordinir aktivitas manajer low-level
- Bertanggungjawab dalam implementasi kebijakan yang direncanakan manajer top level.
- Contoh:
 - Business Unit Head: General manager
 - Department Manager: Product Line Manager, ...

LEVEL MANAJEMEN :LOW/ FRONTLINE/OPERATIONAL MANAGERS

- Manajer low-level mensupervisi aktivitas operasional dalam organisasi
- Terlibat langsung dengan pegawai non manajemen
- Bertanggung jawab secara langsung kegiatan operasional harian
- Mensupervisi dan mengkoordinir aktivitas operasional pegawai

Working leaders dengan tanggungjawab yang luas. with broad responsibilities

- memimpin perusahaan kecil, para manajer mempunyai strategis, taktis, dan tanggung-jawab operasional
- memiliki pengetahuan tentang semua fungsi bisnis, bertanggung jawab untuk hasil, serta fokus kepada pelanggan internal maupun eksternal

Different Skills for Management

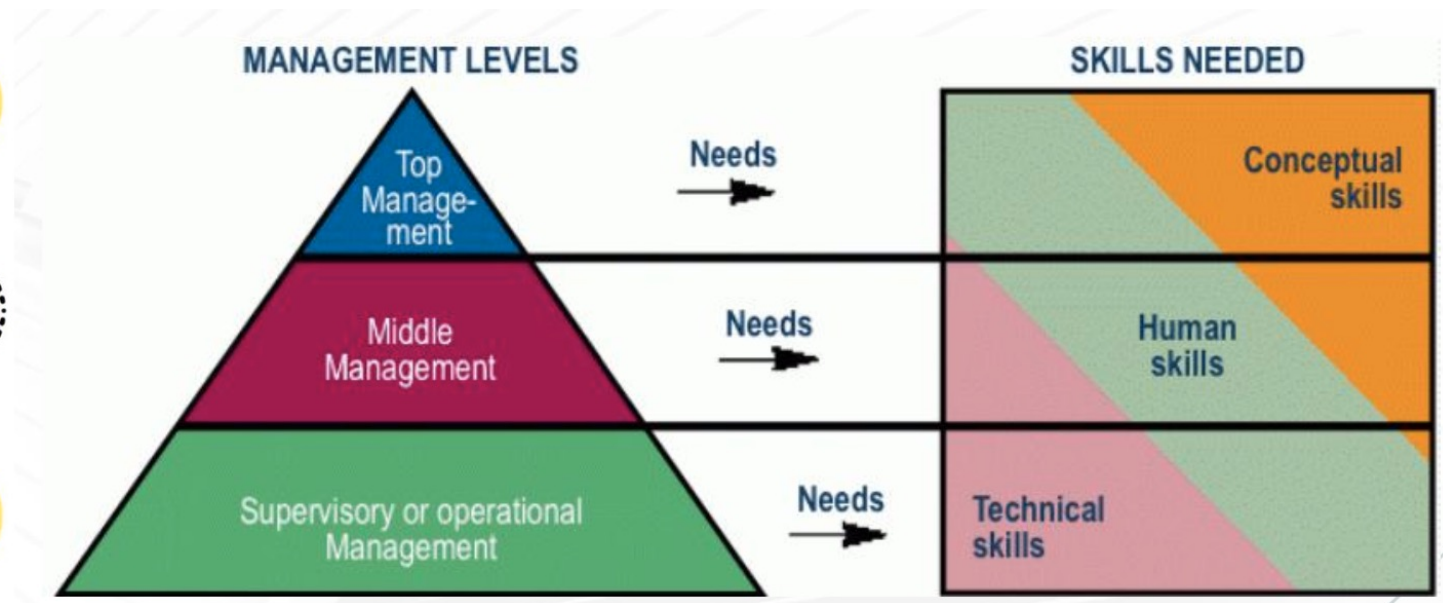

1 TECHNICAL
Skills related to the mechanics or step-by-step actions of doing things. Or, what will you need to do as a manager, and how do you do it?

2 CONCEPTUAL
Understand the complexity of the entire organization and see the organization as a whole.

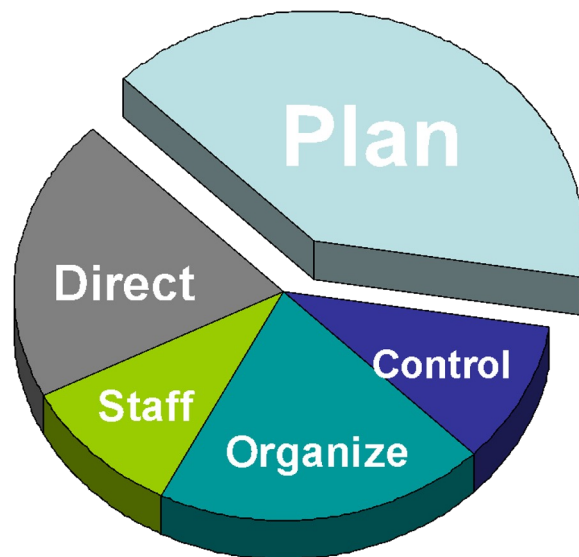

3 HUMAN
Skills related to a manager's ability to influence others to get things done.

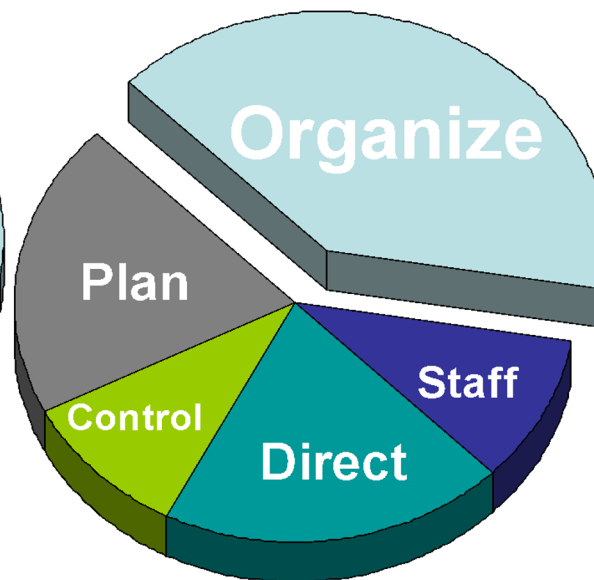

TUGAS MANAJER

Fayol's Functions

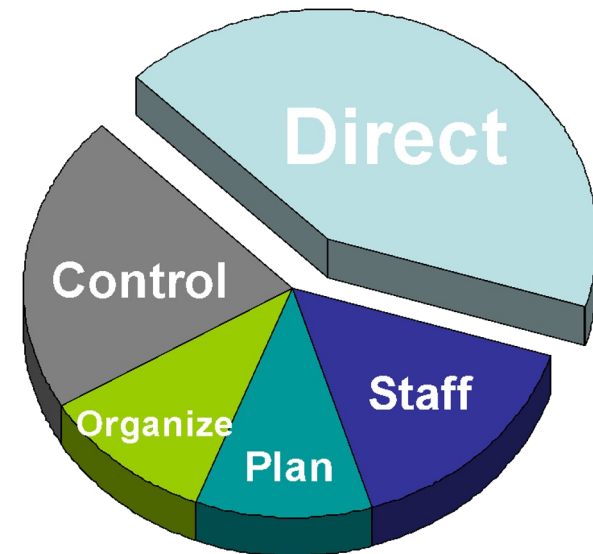

Strategic Planning Level

Management Control Level

Operational Control Level

Management Skills Pyramid

To be successful, there are many skills a manager needs to master.

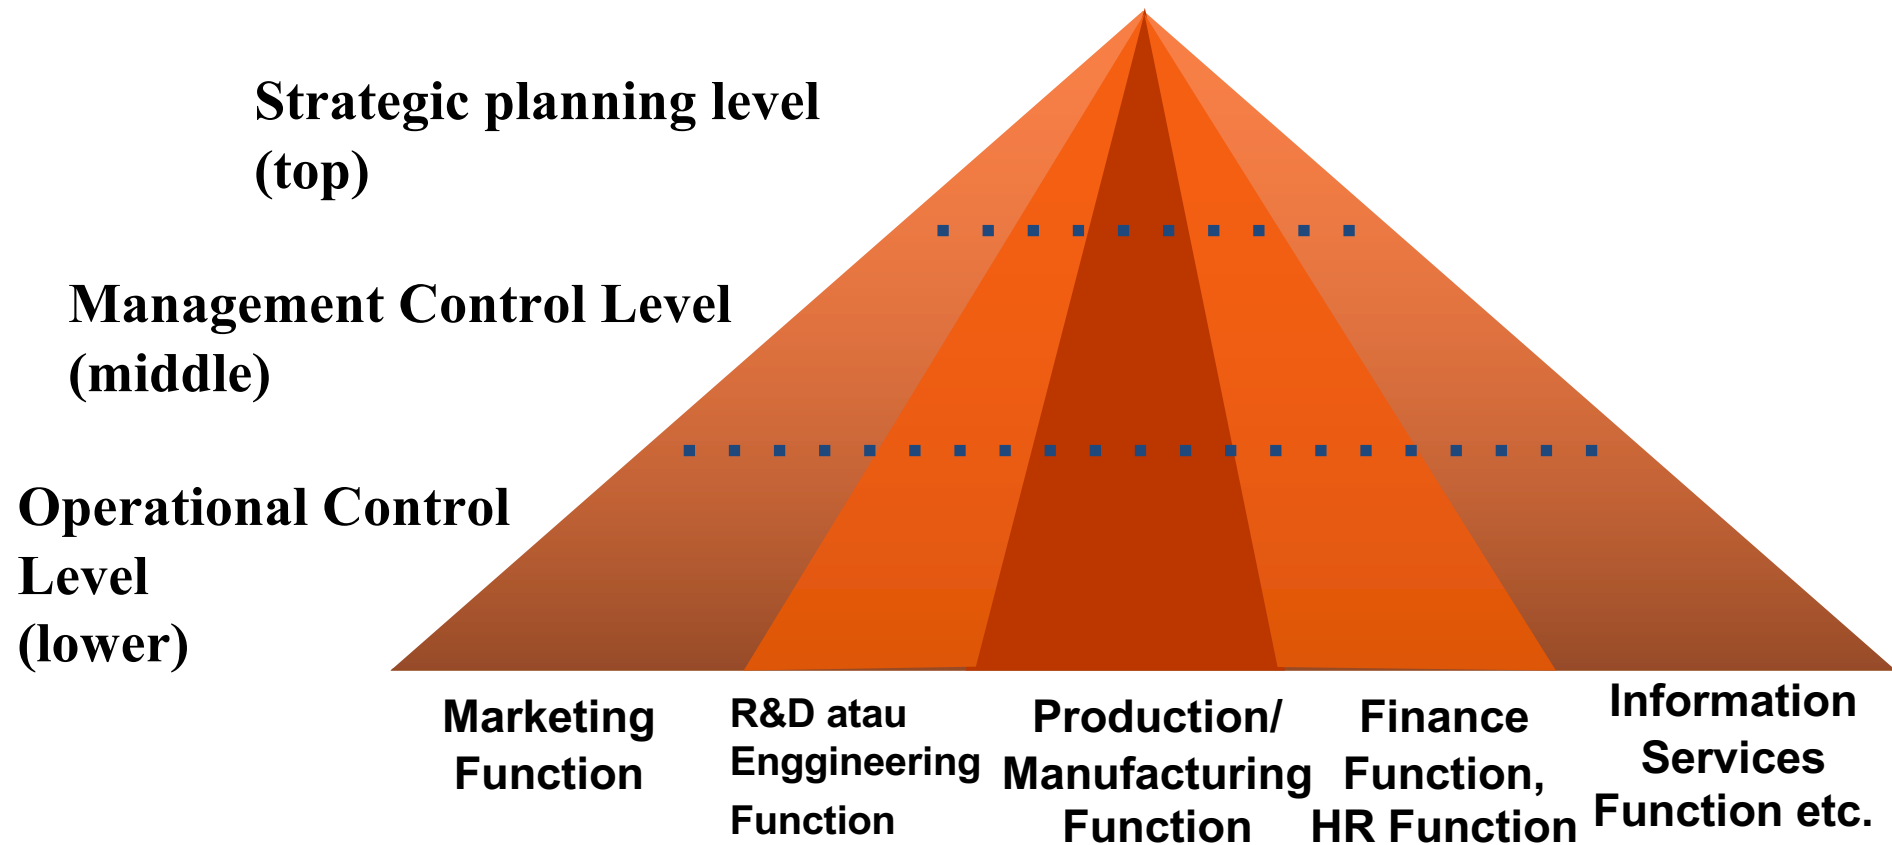

51

Soft Skills Needs

PEMILAHAN MANAJEMEN: HORIZONTAL vs VERTIKAL

PERBEDAAN SECARA HORIZONTAL

- Manajer Fungsional
 - Bertanggungjawab untuk sebuah bagian/departemen yang melakukan sebuah tugas fungsional a.l. R&D, Produksi, Keuangan, SDM, Pemasaran dsb.
- *General managers*
 - Bertanggungjawab untuk sejumlah bagian/departemen yang melakukan beberapa fungsi berbeda

PEMBAGIAN MANAJER BERDASAR AREA/FUNGSI

- **Pemasaran (Marketing)**
 - Membuat orang membeli produk/layanan
- **Keuangan (Financial)**
 - Berurusan dengan Sumber Daya Uang
 - Tambahan: Biasanya mengawasi bagian IT di organisasi yang kecil (!)
- **Operasi (Operations)**
 - Berkaitan dengan sistem/proses produksi (produk atau layanan)
 - Mungkin merupakan manajer IT dalam usaha IT (tetap fokus pada produksi)

[Griffin 2003]

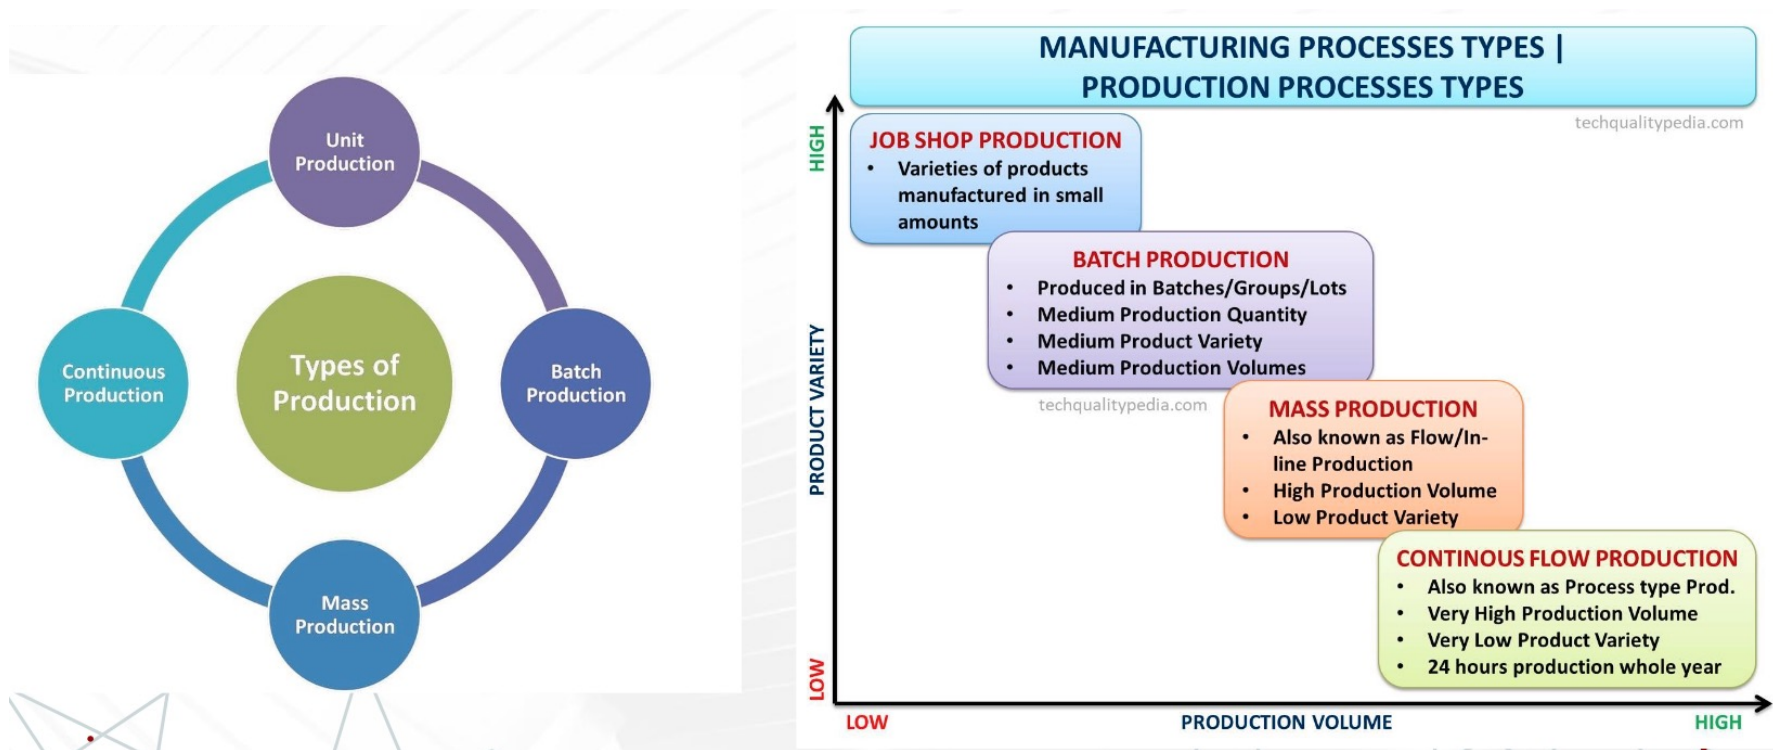

PEMBAGIAN MANAJER BERDASAR AREA/FUNGSI

- **SDM (Human Resource)**
 - Planning, recruiting and selection, training and development
 - Merencanakan gaji & tunjangan serta 'penghargaan'
- **Administratif (Administrative)**
 - Mengenali semua area manajemen dan tidak berkaitan khusus dengan sebuah fungsi manajemen tertentu saja
- **Lain-lain**
 - Posisi manajer khusus yang langsung berkaitan dengan kebutuhan organisasi
 - Mungkin termasuk di dalamnya manajer IT

[Griffin 2003]

Functional Management

Operation/ Production

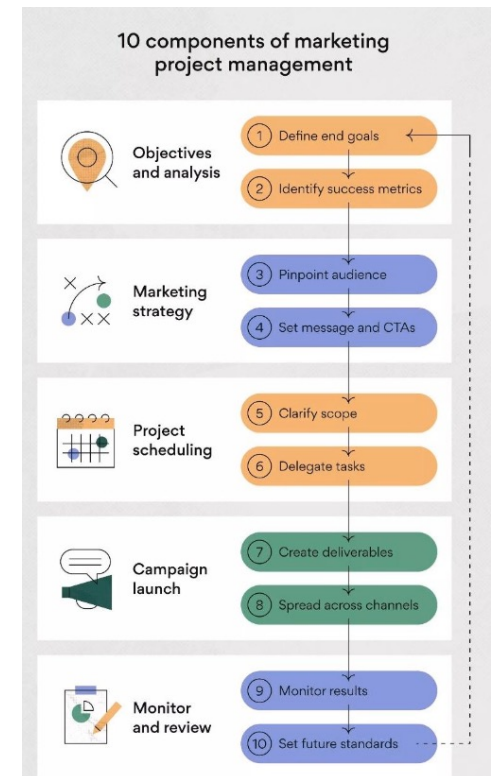

Functional Management

Financial

Functional Management

Marketing & Sales

Functional Management

Research and Development

Functional Management

- ✓ Skills specialisation
- ✓ Better project coordination
- ✓ Flexibility and adaptability
- ✓ Increased responsibility
- ✓ Optimising resources

- ✗ Authority conflicts
 - ✗ Communication complexity
 - ✗ Increased workload
 - ✗ Risk of diluting responsibilities
 - ✗ Resistance to change
-

Functional Management

Fayol's Functions

Tugas 1a

- Pilih satu organisasi/ perusahaan
- Deskripsikan bidang usahanya
 - Berapa besar bisnisnya (aset, penjualan, dll.)?
 - Berapa banyak sub organisasi (cabang)?
- Teliti struktur organisasinya
 - Gambarkan struktur organisasinya?
 - Berapa besar total karyawan?
 - Berapa banyak sub organisasi (cabang)?
 - Berdasarkan apa struktur dari perusahaan tersebut dibuat?
 - Dimana bidang Teknologi Informasi dikelola?

Tugas 1b

- Melanjutkan Tugas 1a
- Teliti struktur organisasinya
 - Mana yang termasuk
 - Manajemen Level Atas
 - Manajemen Level Menengah
 - Manajemen Level Bawah
 - Dimana bidang Teknologi Informasi dikelola?
 - Uraikan level manajemen dari sub organisasi pengelola Teknologi Informasi
- Buat ppt dari jawaban atas pertanyaan di atas dan upload ke edunex (Tugas 1b).
